

natural resources management, transportation, public health, energy). EPA will accept only one proposal from each State and it must be submitted by the principal Environmental Regulatory Agency from that State. States are also encouraged to partner with neighboring States to address cross-boundary issues and to consider partnering with Tribal governments in developing projects and proposals. Multi-state or State-Tribal proposals will be accepted in addition to an individual State proposal, but a State may appear in no more than one multi-State or State-Tribal proposal in addition to their individual State proposal.

EPA is currently working through its American Indian Environmental Office and other Program Offices within the Agency to explore ways to make similar grants available to American Indian Tribes through a parallel process.

Request for State To Designate a Primary Point of Contact

EPA asks that each State Environmental Regulatory Agency designate as a primary point-of-contact, a manager who we will add to the EPA notification list for further announcements about the State Innovation Grant Program. We are asking that this name be submitted with the approval of the highest levels of management within an Agency (Secretary, Commissioner, or their deputies) within 30 days after publication of this notice in the FR July 11, 2003. Please submit this information to EPA as described in the "Addresses" section above.

Dated: June 4, 2003.

Elizabeth Shaw,

Director, Office of Environmental Policy Innovation.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7510-8]

Clean Air Scientific Advisory Committee Science Advisory Board; National Ambient Air Monitoring Strategy (NAAMS) Subcommittee Notification of Public Advisory Committee Meetings

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA), Science Advisory Board (SAB), announces a public meeting and

two publicly-accessible teleconferences of the Clean Air Scientific Advisory Committee (CASAC) to review the Agency's National Ambient Air Monitoring Strategy (NAAMS).

DATES: There are three CASAC NAAMS Subcommittee meetings or teleconferences:

(a) *July 1, 2003:* A publicly accessible teleconference will take place from 1 to 3 pm (Eastern Time) to address any outstanding questions that subcommittee members and others might have concerning the proposed charge to the NAAMS Subcommittee, the NAAMS review materials, and the logistics for the face-to-face meeting on July 8-9, 2003.

(b) *July 8-9, 2003:* A public meeting will take place July 8, from 9 a.m. to 5 p.m. (Eastern Time), and on July 9, from 9 a.m. to 3 p.m. (Eastern Time), at the EPA campus, Building C, Room C111-C, Research Triangle Park (RTP) North Carolina. A publicly-accessible teleconference line is available for the entire meeting.

(c) *August 6, 2003:* A publicly-accessible contingency conference call from 1 to 3 p.m. (Eastern Time), in the event that the NAAMS Subcommittee feels that it is necessary to discuss some remaining issues before completing its report.

Contact: Members of the public who wish to obtain the call-in numbers and access codes to participate in the aforementioned publicly-accessible teleconferences must contact Ms. Delores Darden, EPA Science Advisory Board Staff, at telephone/voice mail: (202) 564-2282, or via e-mail at: darden.delores@epa.gov.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wants further information concerning the meeting or either teleconference, or who wishes to submit brief oral comments (10 minutes or less) must contact Mr. Fred Butterfield, Designated Federal Officer, EPA Science Advisory Board (1400A), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone (202) 564-4561; FAX (202) 501-0582; or via e-mail at butterfield.fred@epa.gov. Request for oral comments must be *in writing* (e-mail, fax or mail) and received by Mr. Butterfield no later than noon Eastern Time five business days prior to the meeting or teleconferences in order to reserve time on the meeting agenda. Written comments (preferably via e-mail) should be sent to Mr. Butterfield by the same deadline so that the comments can be provided to the NAAMS Subcommittee prior to the meeting or teleconferences. General

information concerning the CASAC or the EPA Science Advisory Board can be found on the EPA Web site at: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Summary

The Clean Air Scientific Advisory Committee was established by 42 U.S.C. 7409 to provide advice, information and recommendations on the scientific and technical aspects of issues related to the criteria for air quality standards, research related to air quality, sources of air pollution, and the strategies to attain and maintain air quality standards and to prevent significant deterioration of air quality. The NAAMS Subcommittee will report to the Administrator of EPA through the CASAC, which is administratively located under the EPA Science Advisory Board. The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice, consultation, and recommendations to the EPA Administrator on the technical basis for Agency positions and regulations. Both the CASAC and the SAB are Federal advisory committees chartered under the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. App.). The CASAC NAAMS Subcommittee will comply with the provisions of FACA and all appropriate SAB procedural policies.

Background

States, local agencies and Tribes establish and operate the Nation's regulatory-based ambient air monitoring networks. These networks are funded in part with Federal grants and are managed nationally by the EPA. The network data are used to support:

(a) Designation of attainment and non-attainment areas with respect to the National Ambient Air Quality Standards (NAAQS);

(b) Dissemination of air quality information to the public;

(c) Development (and tracking progress of) emission reduction strategies;

(d) Characterization of long-term air quality trends; and

(e) Studies in health and atmospheric science disciplines.

The associated monitoring network, instrumentation and quality assurance requirements are included in 40 CFR parts 50, 53 and 58.

EPA has recently completed development of the final draft of the National Ambient Air Monitoring Strategy document under the direction of the National Monitoring Strategy Committee (NMSC), an intergovernmental partnership
