East Tennessee Natural Gas Company;
Notice of Filing

June 6, 2003.

Take notice that on June 4, 2003, East Tennessee Natural Gas Company (East Tennessee), 5400 Westheimer Court, Houston, Texas 77056-5310, filed with the Federal Energy Regulatory Commission (Commission) an abbreviated application pursuant to the Natural Gas Act (NGA) to utilize existing vaporization capacity to provide additional vaporization service at its liquefied natural gas (LNG) storage facility located near Kingsport, Tennessee (Kingsport LNG Facility), all as more fully set forth in the application. The application is on file with the Commission and open for public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Specifically, East Tennessee states that its currently effective certificate for the Kingsport LNG Facility authorizes East Tennessee to use 100,000 Mcf/d of the facility's daily vaporization capacity and that the LNG Vaporization Project, the subject of this application, will enable East Tennessee to utilize the full 150,000 Mcf/d of vaporization capacity available at Kingsport LNG Facility to satisfy the daily sendout demands of its storage customers. East Tennessee requests that the Commission act on this filing expeditiously and issue a final certificate granting the requested authorizations on or before September 1, 2003, to allow it to begin using the excess sendout deliverability of the Kingsport LNG Facility in time to meet the demands of the upcoming winter withdrawal season. East Tennessee states that since no construction or facility modifications are required for this project, there will be no environmental or landowner impacts. East Tennessee also states that there will be no new facilities installed pursuant to this application and proposes no rate change. East Tennessee also states that the LNG Vaporization Project will
