

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1–A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418–0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0387.

Title: On Site Verification of Field Disturbance Sensors—Section 15.201(d).
Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 200.

Estimated Time Per Response: 18 hours.

Frequency of Response:

Recordkeeping; one time and on occasion reporting requirement; third party disclosure.

Total Annual Burden: 3,600 hours.

Total Annual Cost: \$40,000.

Needs and Uses: FCC rules permit the operation of field disturbance sensors in the low VHF region of the spectrum. To monitor non-licensed field disturbance sensors operating in the low VHF television bands, a unique procedure for on-site equipment testing of the systems is required to ensure suitable safeguards for the operation of these devices. Data are retained by the holder of the equipment authorized/issued by the FCC and made available only at the request of the Commission.

OMB Control Number: 3060–0436.

Title: Equipment Authorization—Cordless Telephone Security Coding.
Form Number: N/A.

Type of Review: Extension of currently approved collection.

Respondents: Businesses or other for-profit entities.

Number of Respondents: 100.

Estimated Time Per Response: 1.5 hours.

Frequency of Response:

Recordkeeping; one time and on occasion reporting requirements; third party disclosure.

Total Annual Burden: 150 hours.

Total Annual Cost: None.

Needs and Uses: The FCC requires cordless telephone security features protect the public switched telephone network from unintentional line seizure and telephone dialing. These features prevent unauthorized access to the telephone line, the dialing of calls in response to signals other than those from the owner's handset, and the unintentional ringing of a cordless

telephone handset. Use of the cordless telephone security features reduces the harm caused by some cordless telephones to the "911" Emergency Service Telephone System and the telephone network in general.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

January 14, 2003.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before February 24, 2003. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judith Boley Herman, Federal Communications Commission, Room 1–C804, 445 12th Street, SW., DC 20554 or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the

information collection(s), contact Judith Boley Herman at 202–418–0214 or via the Internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0798.

Title: FCC Application for Wireless Telecommunications Bureau Radio Service Authorization.

Form Nos.: FCC Form 601.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions, state, local or tribal government.

Number of Respondents: 242,555.

Estimated Time Per Response: 1.25 hours.

Frequency of Response: On occasion and every 10 years reporting requirements, third party disclosure requirement, recordkeeping requirement.

Total Annual Burden: 212,235 hours.

Total Annual Cost: \$48,510,000.

Needs and Uses: The FCC Form 601 is a consolidated, multi-part application form, or "long form" that is used for general market-based licensing and site-by-site licensing in the Wireless Telecommunications Radio (WTB) Services' Universal Licensing System (ULS). The FCC Form 601 is composed of a main form that contains the administrative information and a series of schedules used for filing technical information. Respondents are encouraged to file electronically. The form has been modified to adopt requirements in various Commission rulemakings. Additionally, the Commission is increasing the number of respondents for potential winners to file in upcoming auctions, thus removing the need for repetitive emergency clearances submitted to OMB due to auction related changes (additional radio services necessary for auction winners).
