

importer. We will direct Customs to assess the resulting percentage margin against the entered customs values for the subject merchandise on each of that importer's entries under the relevant order during the review period. See 19 CFR 351.212(b)(1).

Cash-Deposit Requirements

To calculate the cash-deposit rate for each respondent (*i.e.*, each exporter and/or manufacturer included in these reviews), we divided the total dumping margins for each company by the total net value of that company's sales of merchandise during the review period subject to each order.

To derive a single deposit rate for each respondent, we weight-averaged the EP and CEP deposit rates (using the EP and CEP, respectively, as the weighting factors). To accomplish this when we sampled CEP sales, we first calculated the total dumping margins for all CEP sales during the review period by multiplying the sample CEP margins by the ratio of total days in the review period to days in the sample weeks. We then calculated a total net value for all CEP sales during the review period by multiplying the sample CEP total net value by the same ratio. Finally, we divided the combined total dumping margins for both EP and CEP sales by the combined total value for both EP and CEP sales to obtain the deposit rate.

We will direct Customs to collect the resulting percentage deposit rate against the entered customs value of each of the exporter's entries of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. Entries of parts incorporated into finished bearings before sales to an unaffiliated customer in the United States will receive the respondent's deposit rate applicable to the order.

Furthermore, the following deposit requirements will be effective upon publication of this notice of final results of administrative reviews for all shipments of ball bearings entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(1) of the Act: (1) The cash-deposit rates for the reviewed companies will be the rates shown above except that, for firms whose weighted-average margins are less than 0.5 percent and, therefore, *de minimis*, the Department will not require a deposit of estimated antidumping duties; (2) for previously reviewed or investigated companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for

the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash-deposit rate for all other manufacturers or exporters will continue to be the "All Others" rate for the relevant order made effective by the final results of review published on July 26, 1993. See *Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof from France, et al: Final Results of Antidumping Duty Administrative Reviews and Revocation in Part of an Antidumping Duty Order*, 58 FR 39729 (July 26, 1993). These "All Others" rates are the "All Others" rates from the relevant LTFV investigation.

These deposits requirements shall remain in effect until publication of the final results of the next administrative reviews.

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during these review periods. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return of destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO are sanctionable violations.

We are issuing and publishing these determinations in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: June 9, 2003.

Jeffrey May,

Acting Assistant Secretary for Import Administration.

Certain Cut-to-Length Carbon Steel Plate From Ukraine; Final Results of Administrative Review of the Suspension Agreement and Determination Not To Terminate

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of the Administrative Review of the Suspension Agreement on Certain Cut-to-Length Carbon Steel Plate from Ukraine and Determination Not to Terminate.

SUMMARY: On December 9, 2002, the Department of Commerce (the Department) published the preliminary results of administrative review of the suspension agreement on certain cut-to-length carbon steel plate from Ukraine (the Agreement). See *Notice of Preliminary Results of the Administrative Review of the Suspension Agreement on Certain Cut-to-Length Carbon Steel Plate from Ukraine*, 67 FR 72916 (December 9, 2002) (*Preliminary Results*). The merchandise covered by this administrative review is certain cut-to-length carbon steel plate as described in the "Scope of the Review" section of this **Federal Register** notice. The period of review (POR) is November 1, 2000 through October 31, 2001. In these final results, we have determined that Azovstal Iron and Steel Works (Azovstal), Ilyich Iron and Steel Works (Ilyich), and the Government of Ukraine (collectively, respondents) have complied with the terms of the Agreement. However, we are not terminating the Agreement or the underlying investigation, pursuant to section 351.222(b)(1)(i)(B) of the Department's regulations, because the continued maintenance of the Agreement is necessary to offset dumping.
