**FOR FURTHER INFORMATION CONTACT:** Sid Vogelpohl at (601) 977-5402.

**SUPPLEMENTARY INFORMATION:** The BLM has responsibility to consider EOIs to lease Federal mineral estate for oil and gas exploration and development. Directional wells may be drilled into the Nolin Lake property at depth (4,000 feet) from privately owned property adjoining tracts managed by the COE. No surface equipment or drilling locations would be on COE-managed property. Subject to completion of the PA/EA, the COE has consented to leasing without the right for surface occupancy.

The area being addressed, along with acreage, is identified below.

**Legal Description:** Acquired Lands within Segments 7 through 17 and Segments 22 through 28 within the Nolin Lake Project. Total acreage is 6,731 acres.

An interdisciplinary team will prepare the PA/EA. Preliminary issues, subject to change as a result of public input, are as follows: (1) Potential impacts of oil and gas exploration and development on the surface resources and uses by the COE; and (2) consideration of restrictions on lease rights to protect surface resources and uses by the COE.

Preliminary planning criteria developed to guide the preparation of this PA are listed below. These criteria may be refined by public input.

1. Land use planning and environmental analysis will be conducted in accordance with laws, regulations, executive orders and manuals. Planning will be conducted for the oil and gas mineral estate (leaseable mineral estates, such as, oil and gas; are under the administration of the BLM).

2. A reasonable foreseeable development scenario will be prepared for the exploration and development of oil and gas resources (if any) under the identified land. The surface estate is managed by the COE.

3. Resource data needed to evaluate the impacts of foreseeable oil and gas exploration and development will be collected.

4. The planning team will work cooperatively with (a) federal, state, county and local governments and agencies, (b) tribal governments, (c) groups and organizations and (d) individuals.

Comments relating to the preliminary issues and planning criteria (listed above) should be submitted in writing to the address provided above. Due to the

limited scope of this PA/EA process, public meetings are not scheduled.

Dated: May 8, 2003.

**Bruce E. Dawson,**

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[WY-060-03-1610-DO]

#### Notice of Intent To Revise the Platte River Resource Management Plan and Prepare an Associated Environmental Impact Statement

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Intent to revise the Platte River Resource Management Plan (RMP), to be titled and referred to in the future as the Casper RMP, and prepare an associated Environmental Impact Statement (EIS); solicitation of public comments on resource issues and preliminary planning criteria; and call for coal and other resource information for the Casper RMP planning area, Wyoming.

**SUMMARY:** This document (1) provides notice that the Bureau of Land Management (BLM) intends to prepare a revised RMP with an associated EIS, (2) solicits public comments regarding resource issues and preliminary planning criteria, and, (3) solicits resource information for coal and other resources for the Casper planning area. The planning area, encompassing approximately 1.4 million acres of BLM-administered public land surface and 4.7 million acres of BLM-administered Federal mineral estate, is located in Converse, Goshen, Natrona, and Platte counties, Wyoming. The Platte River RMP (1985) will continue to guide management actions and decisions for the planning area until the Casper RMP is completed and approved.

Preparation of the Casper RMP and associated EIS will fulfill the obligations set forth by the Federal Land Policy and Management Act (FLPMA), the National Environmental Policy Act (NEPA), and Federal regulations.

**DATES:** This notice initiates the public scoping process. The BLM can best utilize public comments and resource information submissions submitted within 60 days of publication of this notice.

**ADDRESSES:** Please send written comments and resource information submissions via mail to the BLM,

Casper Field Office, 2987 Prospector Drive, Casper, Wyoming 82604; or electronically to [crmp\\_wymail@blm.gov](mailto:crmp_wymail@blm.gov). Members of the public may examine documents pertinent to this proposal in the Casper Field Office. To be considered, all comments must include legible full name and address on the envelope, letter, postcard, facsimile, or e-mail. Comments, including names and street addresses of respondents, will be available for public review at the Casper Field Office during regular business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays, and may be published as part of the EIS process. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, please state this prominently at the beginning of your written comment. The BLM will honor such requests to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

**FOR FURTHER INFORMATION:** For further information or to have your name added to the Casper RMP mailing list, contact Linda Slone at the above address or by telephone at (307) 261-7600, or electronically to [rmp\\_wymail@blm.gov](mailto:rmp_wymail@blm.gov).

**SUPPLEMENTARY INFORMATION:** The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national interests. The public scoping process will help identify planning issues, provide for public comment on the proposed planning criteria, and provide an opportunity to comment on documents published throughout the RMP revision process.

The Cedar Ridge-Badwater Creek area, located along the southern border of the Big Horn Mountains in Natrona County, has been evaluated as a traditional cultural property (TCP). The TCP is a sensitive cultural resource of high significance eligible for inclusion in the National Register of Historic Places. During the Casper RMP planning process, the Cedar Ridge-Badwater Creek area will be evaluated as a Special Management Area (SMA.)

#### 1. Preliminary Issues

Emerging resource issues and changing laws necessitate preparation of the Casper RMP. Preliminary issues and management concerns have been identified by BLM personnel, other
