

unit including separate records showing the same information for production from any acreage not insured. In addition, if you insure any acreage that may be subject to an indemnity reduction as specified in section 15(e)(2) (for example, you planted a second crop on acreage where a first insured crop had an insurable loss and you do not qualify for the double cropping exemption), you must provide separate records of production from such acreage for all insured crops planted on the acreage. For example, if you have an insurable loss on 10 acres of wheat and subsequently plant cotton on the same 10 acres, you must provide records of the wheat and cotton production on the 10 acres separate from any other wheat and cotton production that may be planted in the same unit. If you fail to provide such separate records, we will allocate the production of each crop to the acreage in proportion to our liability for the acreage or, if you fail to provide the records necessary to allow allocation, the reduction specified in section 15 will apply; and

(f) In the event you are prevented from planting an insured crop which has prevented planting coverage, you must notify us within 72 hours after:

(1) The final planting date, if you do not intend to plant the insured crop during the late planting period or if a late planting period is not applicable; or

(2) You determine you will not be able to plant the insured crop within any applicable late planting period.

Our Duties—

(a) If you have complied with all the policy provisions, we will pay your loss within 30 days after the later of:

(1) We reach agreement with you;

(2) Completion of arbitration,

reconsideration of determinations regarding good farming practices or any other appeal that results in an award in your favor, unless we exercise our right to appeal such decision; or

(e) With respect to acreage where you have suffered an insurable loss to planted acreage of your first insured crop in the crop year, except in the case of double cropping described in section 15(h):

(1) You may elect to not plant or to plant and not insure a second crop on the same acreage for harvest in the same crop year and collect an indemnity payment that is equal to 100 percent of the insurable loss for the first insured crop; or

(2) You may elect to plant and insure a second crop on the same acreage for harvest in the same crop year (you will pay the full premium and, if there is an insurable loss to the second crop, receive the full amount of indemnity that may be due for the second crop, regardless of whether there is a subsequent crop planted on the same acreage) and:

(i) Collect an indemnity payment that is 35 percent of the insurable loss for the first insured crop;

(ii) Be responsible for a premium for the first insured crop that is commensurate with the amount of the indemnity paid for the first insured crop; and

(iii) If the second crop does not suffer an insurable loss:

(A) Collect an indemnity payment for the other 65 percent of insurable loss that was not previously paid under section 15(e)(2)(i); and

(B) Be responsible for the remainder of the premium for the first insured crop that you did not pay under section 15(e)(2)(ii).

(f) With respect to acreage where you were prevented from planting the first insured crop in the crop year, except in the case of double cropping described in section 15(h):

(1) If a second crop is not planted on the same acreage for harvest in the same crop year, you may collect a prevented planting payment that is equal to 100 percent of the prevented planting payment for the acreage for the first insured crop; or

(2) If a second crop is planted on the same acreage for harvest in the same crop year (you will pay the full premium and, if there is an insurable loss to the second crop, receive the full amount of indemnity that may be due for the second crop, regardless of whether there is a subsequent crop planted on the same acreage) and:

(i) Provided the second crop is not planted on or before the final planting date or during the late planting period (as applicable) for the first insured crop, you may collect a prevented planting payment that is 35 percent of the prevented planting payment for the first insured crop; and

(ii) Be responsible for a premium for the first insured crop that is commensurate with the amount of the prevented planting payment paid for the first insured crop.

(g) The reduction in the amount of indemnity or prevented planting payment and premium specified in sections 15(e) and 15(f), as applicable, will apply:

(1) Notwithstanding the priority contained in the Agreement to Insure section, which states that the Crop Provisions have priority over the Basic Provisions when a conflict exists, to any premium owed or indemnity or prevented planting payment made in accordance with the Crop Provisions, and any applicable endorsement.

(2) Even if another person plants the second crop on any acreage where the first insured crop was planted or was prevented from being planted, as applicable.

(3) For prevented planting only:

(i) If a volunteer crop or cover crop is hayed, grazed or otherwise harvested from the same acreage, after the late planting period (or after the final planting date if a late planting period is not applicable) for the first insured crop in the same crop year; or

(ii) If you receive cash rent for any acreage on which you were prevented from planting.

(h) You may receive a full indemnity, or a full prevented planting payment for a first insured crop when a second crop is planted on the same acreage in the same crop year, regardless of whether or not the second crop is insured or sustains an insurable loss, if each of the following conditions are met:

(1) It is a practice that is generally recognized by agricultural experts or the

organic agricultural industry for the area to plant two or more crops for harvest in the same crop year;

(2) The second or more crops are customarily planted after the first insured crop for harvest on the same acreage in the same crop year in the area;

(3) Additional coverage insurance offered under the authority of the Act is available in the county on the two or more crops that are double cropped;

(4) You provide records acceptable to us of acreage and production that show you have double cropped acreage in at least two of the last four crop years in which the first insured crop was planted, or that show the applicable acreage was double cropped in at least two of the last four crop years in which the first insured crop was grown on it; and

(5) In the case of prevented planting, the second crop is not planted on or prior to the final planting date or, if applicable, prior to the end of the late planting period for the first insured crop.

(i) The receipt of a full indemnity or prevented planting payment on both crops that are double cropped is limited to the number of acres for which you can demonstrate you have double cropped or that have been historically double cropped as specified in section 15(h).

(4) On which the insured crop is prevented from being planted, if you or any other person receives a prevented planting payment for any crop for the same acreage in the same crop year, excluding share arrangements, unless:

(i) It is a practice that is generally recognized by agricultural experts or the organic agricultural industry in the area to plant the second crop for harvest following harvest of the first insured crop, and additional coverage insurance offered under the authority of the Act is available in the county for both crops in the same crop year;

(ii) You provide records acceptable to us of acreage and production that show you have double cropped acreage in at least two of the last four crop years in which the first insured crop was planted, or that show the applicable acreage was double cropped in at least two of the last four crop years in which the first insured crop was grown on it; and

(iii) The amount of acreage you are double cropping in the current crop year does not exceed the number of acres for which you provide the records required in section 17(f)(4)(ii);

(5) On which the insured crop is prevented from being planted, if:

(i) Any crop is planted within or prior to the late planting period or on or prior to the final planting date if no late planting period is applicable, unless you meet the double cropping requirements in section 17(f)(4), or unless the crop planted was a cover crop; or

(ii) Any volunteer or cover crop is hayed, grazed or otherwise harvested within or prior to the late planting period or on or prior to
