I. Final Action

We received no comments on the March 25, 2003 notice of proposed rulemaking. As proposed, we are approving State Implementation Plan (SIP) revisions submitted by the Governor of Utah on June 27, 1994 and April 28, 2000, except for provisions we are not acting on or provisions which we will act on at a later date. We are also approving Supplemental Administrative Documentation submitted by the State on December 31, 2002, except for provisions we are not acting on or provisions which we will act on at a later date.

The following identifies the renumbered SIP sections we are approving as replacing the prior numbered SIP sections: Section I and Section II, effective 11/12/93; Section III, effective 11/12/93, except III.C, effective 1/1/2003; Section IV, Section V and Section VI, effective 11/12/93; Section VII, effective 11/12/93, except VII.D, effective 1/1/2003; Section VIII, effective January 1, 2003; Section IX, Part B, effective 11/12/93, except the title and IX.B.3.d, effective 2/25/2000, and IX.B.3.a, IX.B.3.e, and IX.B.4, effective 1/1/2003; Section IX, Parts C, E, F and G, effective 11/12/93, except the titles, effective 2/25/2000; Section IX, Part D.1, effective 11/12/93, except for the title, effective 2/25/2000 and IX.D.1.d, effective 1/1/2003; Section XI, Appendix 1 and Appendix 2, effective

11/12/93; Section XII and Section XIII, effective 11/12/93; Section XIV, effective 11/12/93, except Table XIV.9, effective 2/25/2000; Section XV and Section XVI, effective 11/12/93; Section XVII, effective 11/12/93, except XVII.A, XVII.D and XVII.E, effective 2/25/2000; Section XVIII, effective 11/12/93, except XVIII.B, effective 2/25/2000; and Section XIX, effective 11/12/93.

We are also approving non-substantive changes to Section IX, Part C.7 and C.8, Section IX, Part D.2 and Section XXII, effective January 1, 2003.

In addition, we are taking no action on certain portions of the submittals because they have never been part of the SIP or they have been superseded by other submittals approved by the EPA into the SIP. The portions of the submittals that we are taking no action on are Section XX, Section X and Section XI.

Also, we will act on portions of the submittals in separate documents. We are taking action on Section IX, Part A and Part H and non-substantive changes to Section IX, Parts C.1–C.6 and Section XXI in separate documents.

Section 110(l) of the Clean Air Act states that a SIP revision cannot be approved if the revision would interfere with any applicable requirement concerning attainment and reasonable further progress towards attainment of the NAAQS or any other applicable requirements of the Act. We believe the

Utah SIP revisions that are the subject of this document will not interfere with any applicable requirement concerning attainment and reasonable further progress towards attainment of the NAAQS or any other applicable requirements of the Act because the State is merely renumbering its SIP and the State's revisions are as no less stringent than requirements currently contained in their SIP.

II. Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond
