SUPPLEMENTARY INFORMATION: On May 28, 1999, NMFS issued a regulation (64 FR 29090) codified at 50 CFR 635.69(a), requiring all commercial pelagic longline vessels fishing for Atlantic HMS to install a NMFS-approved VMS unit. Due to litigation, the requirement was stayed indefinitely on October 1, 2000 (66 FR 1907, January 10, 2001). On

October 15, 2002, the U.S. District Court for the District of Columbia issued a final order upholding the VMS regulation. Following the favorable court ruling, NMFS began working to reinstate the VMS requirement.

On March 11, 2003, NMFS published a notice in the **Federal Register** (68 FR 11534) and corrected it on March 27, 2003 (68 FR 14949), to provide a list of the NMFS-approved VMS units for use by pelagic longline vessels in the Atlantic Highly Migratory Species (HMS) Fisheries and set forth relevant features of each VMS. The notification was issued to update and replace the approval notice published on September 9, 1999. An additional type approval notice was published on May 1, 2003 (68 FR 23285).

NMFS also submitted a request to the Office of Management and Budget (OMB) to reinstate approval for VMS information collection under the provisions of the Paperwork Reduction Act. A notice regarding this collection was published in the **Federal Register** on November 18, 2002 (67 FR 69506). The second notice of OMB review was published in the **Federal Register** on March 19, 2003 (68 FR 13280). OMB approved the VMS information collection request on May 10, 2003.

The placement of VMS units on fishing vessels in this fishery will enable NMFS to determine vessel locations and will complement the Agency's efforts to monitor and enforce compliance with applicable regulations. Because fishermen need time to purchase and install VMS, the VMS rule will be effective September 1, 2003, which provides approximately 60 days for affected fishermen to come into compliance.

Classification

This action is published under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The Assistant Administrator (AA) has determined that implementation of a VMS program in the pelagic longline fishery is necessary to monitor and enforce closed areas implemented to reduce bycatch. The AA finds that good cause exists to waive the requirement to provide prior notice and the opportunity for comment, pursuant to authority set forth at 5 U.S.C. 553(b)(B), as such procedures would be unnecessary and contrary to the public interest. This amendment establishes a new effective date for the HMS VMS rule, which had been suspended due to litigation. NMFS provided for prior notice and comment before promulgating the HMS VMS rule in 1999, then provided for additional
