D. How Should I Submit CBI to the Agency?

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

7. Make sure to submit your comments by the deadline in this document.
8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response.

II. Background

A. What Action is the Agency Taking?

EPA is making available the revised occupational and ecological risk assessments that have been developed as part of the Agency's public participation process for making reregistration eligibility decisions for other pesticides consistent with FIFRA. EPA's dietary risk assessment and tolerance reassessment for imazalil can be found in the Tolerance Reassessment Decision document (TRED) issued for imazalil on July 12, 2002. Therefore, comments should be limited to occupational and ecological risk findings for imazalil. The Agency's occupational and ecological risk assessment and other related documents for imazalil are available in the individual pesticide docket. As additional comments, reviews, and risk assessment modifications become available, these will also be docketed for imazalil.

The Agency cautions that the imazalil risk assessment is revised; however, further refinements may be appropriate. Risk assessment documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

EPA is providing an opportunity, through this notice, for interested parties to provide written comments and input to the Agency on the risk assessments for the pesticide specified in this notice. Such comments and input could address, for example, the availability of additional data to further refine the occupational and ecological risk assessments or could address the Agency's risk assessment methodologies and assumptions as applied to this specific chemical. Comments should be limited to issues raised within the risk assessment and associated documents. EPA would also appreciate any comments on risk mitigation options. Failure to comment on any such issues as part of this opportunity will in no way prejudice or limit a commenter's opportunity to participate fully in later notice and comment processes. All comments should be submitted by August 25, 2003, using the methods in Unit I. of the **SUPPLEMENTARY INFORMATION**. Comments will become part of the Agency record for imazalil.
