

to take loggerhead, leatherback, green, hawksbill, olive ridley, and Kemp's ridley sea turtles had been submitted by the above-named organization. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The permit will allow the SEFSC to conduct sea turtle bycatch reduction research in the pelagic longline fishery of the western north Atlantic Ocean. The purpose of the research is to develop and test methods to reduce bycatch that occurs incidental to commercial, pelagic longline fishing. The goal is to develop a means to reduce turtle take and retain viable fishing performance that may be adopted by the U.S. pelagic longline fleet as an alternative to more restrictive sea turtle protection measures, such as closures. The technologies developed through this research are expected to be transferrable to other nations' fleets as well, so this work will address the larger problem of sea turtle bycatch by pelagic longlines throughout the entire Atlantic Ocean and in other regions where sea turtle bycatch is a concern. The research will also attempt to determine the feasibility of using pop-up satellite tags to study the post-hooking survival of turtles impacted by the fishery. The permit expires on December 31, 2003.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Title and OMB Number: Contractor Manpower Reporting Pilot Study; OMB Number 0702—(To Be Determined)

Type of Request: New Collection.

Number of Respondents: 31,870.

Responses Per Respondent: 30 (average).

Annual Responses: 969,216.

Average Burden Per Response: 5 minutes (average).

Annual Burden Hours: 80,445.

Needs and Uses: Section 345 of the National Defense Authorization Act for Fiscal Year 2002 (Pub. L. 107–194) requires that the Secretary of the Army to submit to Congress a report describing the use, during the previous fiscal year, of non-Federal entities providing services to the Department of the Army. The pilot program will greatly enhance the ability of the Army to identify and track its contractor workforce. Modern systems do not have contractor manpower data that is collected by the Contractor Manpower Reporting System, *ie.*, estimated direct labor hours, estimated direct labor dollars, and organization supported. Existing financial and procurement systems have obligation amounts of an unknown mix, and the Department of the Army is not able to trace the funding of the organization supported. The pilot study will use a streamlined, user-friendly, and secure website to obtain contractor work force information.

Affected Public: Business or Other For-Profit.

Frequency: Annually.

Respondent's Obligation: Required to Obtain or Retain benefits.
