

(iii) As a result of the application of paragraph (a)(1) of this section to E's distribution of 2 percent of L stock to A on January 1, 2004, for testing dates on and after January 1, 2004, A is treated as having acquired that 2 percent interest in L in 1994, and E is treated as having acquired only 8 percent of L stock in 1994. Because there are no owner shifts on January 1, 2004, that date is not a testing date.

(iv) July 1, 2004, is a testing date because on that date A, a 5-percent shareholder, acquires 1 percent of L stock. As of the close of that testing date, A's percentage of ownership of L stock is 7 percent, and A's lowest percentage of ownership of L stock at any time within the testing period is 2 percent (deemed acquired in 1994), representing an increase of 5 percentage points. In addition, as of the close of July 1, 2004, B's percentage of ownership of L stock is 5 percent, and B's lowest percentage of ownership of L stock at any time within the testing period is 0 percent, representing an increase of 5 percentage points. Thus, on July 1, 2004, L must take into account an increase of 10 (5 + 5) percentage points in determining whether it has an ownership change.

**Example 2—**(i) *Facts.* E is a qualified trust established under Plan F. L, a publicly traded corporation, has 100x shares of stock outstanding. As of January 1, 2006, C owns 5x shares of L stock and is not a participant or beneficiary of a participant in Plan F. At all times prior to January 1, 2006, E owns no L stock. On January 1, 2006, E acquires 10x shares of L stock from members of the public group of L. On December 1, 2007, E distributes 5x shares of L stock to some of the participants in Plan F. No one participant acquires all 5x shares as a result of the distribution. On February 1, 2008, C purchases 1x shares of L stock from the public group of L.

(ii) *Analysis.* Because E's acquisition of 10x shares of L stock on January 1, 2006, is an owner shift, that date is a testing date. As of the close of that date, E's percentage of stock ownership in L has increased by 10 percentage points.

(iii) As a result of the application of paragraph (a)(1) of this section to E's distribution of 5x shares of L stock to some Plan F participants on December 1, 2007, for testing dates on and after December 1, 2007, those distributees are treated as having acquired those shares of stock on January 1, 2006, from members of the public group of L, and E is not treated as having acquired those shares on that date. E's distribution of the 5x shares is not an owner shift. Therefore, December 1, 2007, is not a testing date.

(iv) February 1, 2008, is a testing date because on that date an owner shift results from C's purchase of 1x shares of L stock. As of the close of that testing date, the distributees of 5x shares of L stock are treated as members of the public group of L having acquired 5x shares of L stock from other members of the public group of L on January 1, 2006. Because those acquisitions are not by 5-percent shareholders, L does not take them into account. In addition, as of the close of February 1, 2008, E's percentage of stock ownership in L is 5 percent, and E's lowest percentage of stock ownership in L at any

time within the testing period is 0 percent, representing an increase of 5 percentage points. In addition, as of the close of February 1, 2008, C's percentage of stock ownership in L is 6 percent, and C's lowest percentage of stock ownership in L at any time within the testing period is 5 percent, representing an increase of 1 percentage point. Therefore, on February 1, 2008, L must take into account an increase of 6 (5 + 1) percentage points in determining whether it has an ownership change.

(4) *Effective date—*(i) *General rule.* This section applies to all distributions after June 27, 2003.

(ii) *Retroactive application.* Notwithstanding paragraph (a)(4)(i) of this section, a loss corporation may apply the rules of this section retroactively to:

(A) All distributions on or before June 27, 2003 that are within a testing period that includes June 27, 2003; or

(B) All distributions after December 31, 1986.

#### I. Background on the West Virginia Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, “\* \* \* a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of the Act \* \* \*; and rules and regulations consistent with regulations issued by the Secretary pursuant to the Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the West Virginia program on January 21, 1981. You can find background information on the West Virginia program, including the Secretary's findings, the disposition of comments, and conditions of approval of the West Virginia program in the January 21, 1981, **Federal Register** (46 FR 5915). You can also find later actions concerning West Virginia's program and program amendments at 30 CFR 948.10, 948.12, 948.13, 948.15, and 948.16.

#### II. Submission of the Amendment

By letter dated April 9, 2002 (Administrative Record Number WV-1296), the West Virginia Department of Environmental Protection (WVDEP) sent us a proposed amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). The proposed amendment consists of several changes to the Code of State Regulations (CSR) at 38-2, and the addition of new CSR 38-4, the Coal Related Dam Safety Rules, as contained in House Bill 4163.

We announced the receipt and provided an opportunity to comment on the amendment in the June 6, 2002, **Federal Register** (67 FR 38919) (Administrative Record Number WV-1311). The comment period closed on July 8, 2002. We received comments from the U.S. Department of Labor's Mine Safety and Health Administration.

By letter and electronic mail dated June 19, 2002, WVDEP sent us additional amendments to its program concerning changes to CSR 38-2 that are contained in Senate Bill 2002 (Administrative Record Number WV-1316). Senate Bill 2002 was signed by
