Addendum V—National Coverage Determinations [January 2003 Through March 2003]

A national coverage determination (NCD) is a determination by the Secretary with respect to whether or not a particular item or service is covered nationally under Title XVIII of the Social Security Act, but does not include a determination of what code, if any, is assigned to a particular item or service covered under this title,

determination with respect to the amount of payment made for a particular item or service so covered. We include below all of the NCDs that became effective during the quarter covered by this notice. The entries below include information concerning completed decisions as well as sections on program and decision memoranda, which also announce impending decisions or, in some cases, explain why it was not appropriate to issue an NCD.

We identify completed decisions by section of the CIM in which the decision appears, the title, the date the publication was issued, and the effective date of the decision. Information on completed decisions as well as pending decisions has also been posted on the CMS website at <http://cms.hhs.gov/coverage>.
