SUPPLEMENTARY INFORMATION:**Background**

In a separate Notice of Proposed Rulemaking published in today's **Federal Register**, the Drug Enforcement Administration (DEA) is proposing regulations regarding the electronic transmission of Schedule I and II controlled substances orders from purchasers (DEA-registered distributors, pharmacies and practitioners) to suppliers (DEA-registered manufacturers and distributors) and the electronic retention of records pertaining to those orders. DEA is proposing that these electronic orders be conducted using Public Key Infrastructure (PKI) technology, including the use of digital certificates provided by the DEA root Certification Authority.

This meeting is being held to provide information to interested persons including systems vendors and developers regarding industry's development of electronic systems which conform to the standards and regulations DEA is proposing. Persons interested in learning about the development of such PKI-based systems using DEA's standards may attend this meeting, so long as space permits.

Background and Supporting Documents

Supporting documents regarding DEA's system to permit the electronic transmission of Schedule I and II controlled substances orders and the electronic retention of records pertaining to those orders, including the Certificate Policy, Certificate Profile, enrollment documents, PKI test suite and other pertinent materials may be found within the Electronic Commerce Initiatives/CSOS section on the Diversion Control Program Web site: <http://www.deadiversion.usdoj.gov/ecom/index.html>.
