II. Background

What Action is the Agency Taking?

EPA's Office of Pesticide Programs (OPP) has developed a commodity vocabulary data base entitled *Food and Feed Commodity Vocabulary*. The data base was developed to consolidate all the major OPP commodity vocabularies into one standardized vocabulary. As a result, all future pesticide tolerances issued under 40 CFR part 180 will use the preferred commodity term as listed in the aforementioned data base. This revision process will establish a uniform presentation of existing commodity terms under 40 CFR part 180. This is the fourth in a series of documents revising the terminology of commodity terms currently used in tolerances in 40 CFR part 180. Two final rules, revising pesticide tolerance nomenclature, were published in the **Federal Register** on June 19, 2002 (67 FR 41802) (FRL-6835-2), and June 21, 2002 (67 FR 42392) (FRL-7180-1).

In the **Federal Register** of April 18, 2003, (68 FR 19170) (FRL-7176-9) EPA issued a proposed rule to make minor revisions to the terminology of certain commodity terms used in tolerances in 40 CFR part 180, subpart C, to establish a uniform listing of commodities. There were no comments received in response to the proposed rule.

This revision process will establish a uniform presentation of existing commodity terms under 40 CFR part 180.

III. Objections and Hearing Requests

Under section 408(g) of the FFDCA, as amended by the FQPA, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. The EPA procedural regulations which govern the submission of objections and requests for hearings appear in 40 CFR part 178. Although the procedures in those regulations require some modification to reflect the amendments made to the FFDCA by the FQPA, EPA will continue to use those procedures, with appropriate adjustments, until the necessary modifications can be made. The new section 408(g) of the FFDCA provides essentially the same process
