20. In § 50.109, paragraph (a)(1) is revised to read as follows:

§ 50.109 Backfitting.

(a)(1) Backfitting is defined as the modification of or addition to systems, structures, components, or design of a facility; or the design approval or manufacturing license for a facility; or the procedures or organization required to design, construct or operate a facility; any of which may result from a new or amended provision in the Commission

rules or the imposition of a regulatory staff position interpreting the Commission rules that is either new or different from a previously applicable staff position after:

(i) The date of issuance of the construction permit for the facility for facilities having construction permits issued after October 21, 1985; or

(ii) Six months before the date of docketing of the operating license application for the facility for facilities having construction permits issued before October 21, 1985; or

(iii) The date of issuance of the operating license for the facility for facilities having operating licenses; or

(iv) The date of issuance of the design approval under subpart E of part 52 of this chapter;

(v) The date of issuance of a manufacturing license under subpart H of part 52 of this chapter;

(vi) The date of issuance of the first construction permit issued for a duplicate design under subpart I of part 52 of this chapter; or

(vii) The date of issuance of a combined license under subpart G of part 52 of this chapter, provided that if the combined license references an early site permit, the provisions in § 52.39 apply with respect to the site characteristics, terms, and conditions of the early site permit. If the combined license references an early site review, the provisions in § 52.47 apply with respect to the staff site report. If the combined license references a design certification rule, the provisions in § 52.127(a) apply with respect to the design matters resolved in the design certification.
