

*Bar from India; Final Results of Antidumping Duty Administrative Review and New Shipper Review and Partial Rescission of Administrative Review*, 65 FR 48965 (August 10, 2000) (Placed on the record of this proceeding June 30, 2003, as an attachment to the Memorandum to Susan Kuhbach, "Factors of Production Values Used in the Preliminary Results." Because this information is not contemporaneous with the POR, we adjusted the data to the POR by using the Indian WPI.

*By-products:* Certain respondents reported by-products resulting from production of the subject merchandise. For those respondents that reported their production of apple essence/aroma and/or apple pomace, we have made a deduction for the production of by-products generated during production of AJC. Because we were unable to find reliable Indian values for apple essence or apple pomace, and we are still in the process of looking for a Polish price, we used U.S. prices as the surrogate values because they are the only values on the record of this proceeding. We will continue to look for an appropriate surrogate for purposes of the final results. The value for apple essence/aroma was calculated as a simple average of the various prices reported at the July 1999 ITC hearing and 1999 price quotes provided to the Department by two U.S. brokers of food products. Apple pomace was valued using an April 2000 study published by the University of Georgia. *Preliminary Results of the Review.*

#### Assessment Rates

Pursuant to 19 CFR 351.212(b), the Department calculates an assessment rate for each importer of the subject merchandise. Upon issuance of the final results of this administrative review, if any importer-specific assessment rates calculated in the final results are above *de minimis* (i.e., at or above 0.5 percent), the Department will issue appraisal instructions directly to the U.S. Bureau of Customs and Border Protection to assess antidumping duties on appropriate entries by applying the assessment rate to the entered value of the merchandise. For assessment purposes, we calculate importer-specific assessment rates for the subject merchandise by aggregating the dumping duties due for all U.S. sales to each importer and dividing the amount by the total entered value of the sales to that importer.

#### Cash Deposit Requirements for Administrative Review

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) for the PRC companies named above, the cash deposit rates for exporters to the United States by these companies will be the rates for these firms shown above, except that, for exporters with *de minimis* rates i.e., less than 0.50 percent, no deposit will be required; (2) for North Andre, which was excluded from the antidumping duty order, no deposit is required; (3) for exporters previously found to be entitled to a separate rate in a prior segment of the proceedings, and for which no review has been requested, the cash deposit rate will continue to be the rate established for that exporter in the most recent segment of the proceeding; (4) for all other PRC exporters (including Changsha), the cash deposit rate will be 51.74 percent, the PRC country-wide ad-valorem rate; and (5) for all other non-PRC exporters of subject merchandise from the PRC to the United States, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.
