

and credits for scrap, salvage, and material returned to vendors; and

(2) Credit such income and other credits either directly to the cost of the material or allocate such income and other credits as a credit to indirect costs. When the contractor can demonstrate that failure to take cash discounts was reasonable, the contractor does not need to credit lost discounts.

(c) When materials are purchased specifically for and are identifiable solely with performance under a contract, the actual purchase cost of those materials should be charged to the contract. If material is issued from stores, any generally recognized method of pricing such material is acceptable if

that method is consistently applied and the results are equitable.

(d) Allowance for all materials, supplies and services that are sold or transferred between any divisions, subdivisions, subsidiaries or affiliates of the contractor under a common control shall be on the basis of cost incurred in accordance with this subpart. However, allowance may be at price when—

(1) It is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary or affiliate of the contractor under a common control; and

(2) The item being transferred qualifies for an exception under 15.403–

1(b) and the contracting officer has not determined the price to be unreasonable.

(e) When a commercial item under paragraph (c) of this subsection is transferred at a price based on a catalog or market price, the contractor—

(1) Should adjust the price to reflect the quantities being acquired; and

(2) May adjust the price to reflect the actual cost of any modifications necessary because of contract requirements.

31.205–44 [Amended]

8. Amend section 31.205–44 in paragraph (f) by removing “31.205–24”.
