

groundwater wells would supply the non-potable water for plant operation. Potable water would be brought to the site as bottled water.

There are two small ephemeral ponds on the site. One is on the west side of the site and is about 0.03 acres. The other pond on the north side of the property is about 0.01 acres in size. All ponds eventually drain to the East Nishnabotna River. Plant process water effluents and stormwater runoff would be discharged to the larger pond, which would need to be expanded. The existing 0.03-acre pond would be excavated to provide a deeper basin and a larger surface area. The proposed action would raise the existing dike on the larger pond sufficient to increase the size of the pond to 0.18 acres. The result would be a 0.15-acre increase of wetland habitat in the project area. The new 161-kV transmission line would span the other pond which would not be impacted by the Project. Also, a new pond would be developed to capture stormwater runoff during construction and operation. The new pond would be constructed by excavating a low area just east of the proposed plant site and creating a berm near the northern property boundary. The resulting pond would be approximately 0.46 acres with a depth of 1 to 2 feet during and after storm events.

In accordance with the Department of Energy's Floodplain/Wetlands Review Requirements (10 CFR part 1022), Western will prepare a wetland assessment and will perform the proposed actions to avoid or minimize potential harm to or within the wetland. The wetland assessment will examine the use of the wetland as a stormwater and waste water retention basin and evaluate avoidance, mitigation, or compensation to minimize loss of wetland habitat. The wetland is located in Audubon County, Iowa, in T. 78 N., R. 35 W., section 31. Maps and further information are available from the contacts listed above.

Dated: June 27, 2003.

Michael S. HacsKaylo,
Administrator.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2003-0120, FRL-7524-1]

Agency Information Collection Activities: Proposed Collection; Comment Request; Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings, EPA ICR Number 1765.03, OMB Control Number 2060-0353

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB). This is a request to renew an existing approved collection. This ICR is scheduled to expire on September 30, 2003. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before September 5, 2003.

ADDRESSES: Submit your comments, referencing Docket ID number OAR-2003-0120, to EPA online using EDOCKET (our preferred method), by e-mail *A-and-R-Docket@epamail.epa.gov*, or by mail to: EPA Docket Center, Environmental Protection Agency, National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings, Mailcode 6102T, 1200 Pennsylvania Ave., NW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Morris, Emission Standards Division (C504-04), U.S. EPA, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-5416; fax number: (919) 541-3470; electronic mail (e-mail) address: *morris.mark@epa.gov*.

SUPPLEMENTARY INFORMATION: The EPA has established a public docket for this ICR under Docket ID number OAR-2003-0120, which is available for public viewing at the Air Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW, Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air Docket

is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. The EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Affected entities: Entities potentially affected by this action are manufacturers and importers of automobile refinish coatings and coating components.

Title: Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings.

Abstract: The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are
