■ 1. The authority citation for part 652 is revised to read as follows:

**Authority:** 16 U.S.C. 3842, 7 U.S.C. 6962a.

■ 2. Subpart A is amended by adding a new § 652.8 to read as follows:

\* \* \* \* \*

### § 652.8 Limited Exception to Certification Requirements for State, Local and Tribal Government Partners.

(a) In carrying out its duties to deliver technical services, the Department may enter into agreements, as provided for below, with State, local, and tribal governments (including conservation districts) approving such governmental entities to provide technical services when the Department determines that such a partnership is an effective means to provide technical services.

(b) In the case of conservation districts, the cooperative working agreements between NRCS and the conservation districts will be amended to ensure that district employees have the requisite training or experience in order to provide technical services. For other governmental entities, the Department will enter into memoranda of understanding to ensure that employees of the governmental entity have the requisite training or experience to carry out the technical services. The governmental entity is not required to be certified under the provisions of this regulation in order to provide technical services nor do the other provisions of this regulation apply to any partnership relationship entered into under the authority of this section. The responsibilities of the parties will be governed by the terms of the cooperative working agreement or the memoranda of understanding and the contribution agreement, if any.

(c) Any cooperative working agreement entered into with a conservation district or any memoranda of understanding entered into with a State, local, or tribal government will set forth the specific terms of the Department's approval of such an entity to provide technical services in partnership with the Department, as well as the scope of the relationship. If the Department is providing any financial resources to effectuate such a partnership, the Department will use a contribution agreement to memorialize the relationship, which will include in its terms the requirement that any technical services provided will meet NRCS standards and specifications. Conservation districts and other governmental entities must contribute at

least 50 percent of the resources needed for implementing the contribution agreement.

(d) Governmental entities that are technical service providers shall not be eligible to receive payment under a program contract or agreement for technical services provided to a program participant if the governmental entity has entered into a memorandum of understanding or contribution agreement under this section to provide technical services to that program participant.

Signed in Washington, DC, on June 27, 2003.

#### 7 CFR Part 993

[Docket No. FV03-993-2 IFR]

### Dried Prunes Produced in California; Temporary Suspension of the Prune Reserve and the Voluntary Producer Prune Plum Diversion Provisions

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Interim final rule with request for comments.

**SUMMARY:** This rule suspends the prune reserve and the voluntary producer prune plum diversion provisions in the California Dried Prune Marketing Order (order) and the administrative rules and regulations related to volume control restrictions for a five-year period. The order regulates the handling of dried prunes produced in California and is administered locally by the Prune Marketing Committee (PMC). Suspension of these provisions will ensure that volume control restrictions would not be implemented under these provisions. During the five-year suspension period, the industry will have the opportunity to determine whether these provisions should be modified, terminated, or continue unchanged. In the absence of additional rulemaking to modify or terminate these provisions, they would come back into effect automatically at the end of the five-year period.

**DATES:** Effective August 1, 2003, through July 31, 2008. Comments received by September 8, 2003 will be considered prior to issuance of a final rule.
