

M660. Other Regular and Nonprofit Standard Mail pieces measuring 3/4 inch thick or less and meeting the applicable standards in C600, E660, and M660 may be entered as CMM at the mailer's option. CMM must be entered directly at a destination delivery unit (DDU).

## 1.2 Basic Standards

All pieces in a CMM mailing must:

a. Meet the basic standards for Standard Mail in E610 and, for Nonprofit Standard Mail, the additional standards in E670.

b. Be part of a single mailing of at least 200 addressed pieces. All pieces must be identical in size, shape, and weight unless excepted by standard under an approved postage payment system.

c. Bear a complete delivery address using the exceptional address format or occupant address format under A020 with the correct ZIP Code or ZIP+4 code. Each piece must also bear a carrier release endorsement as specified by D042. These additional addressing standards apply:

(1) Detached address labels (DALs) under A060 are not permitted.

(2) Ancillary service endorsements under F010 are not permitted.

(3) All 5-digit ZIP Codes included in addresses on pieces must be verified and corrected within 12 months before the mailing date, using a USPS-approved method. The mailer's signature on the postage statement certifies that this standard has been met when the corresponding mail is presented to the USPS. This standard applies to each address individually, not to a specific list or mailing. An address meeting this standard may be used in mailings at any other rates to which the standard applies during the 12-month period after its most recent update.

(4) At the mailer's option, a carrier route information line under M014 may be added. If this option is used, a carrier route code must be applied to every piece in the mailing and must be applied using CASS-certified software and the current USPS Carrier Route File scheme, hard copy Carrier Route Files, or another Address Information Systems (AIS) product containing carrier route information, subject to A930 and A950. Carrier route information must be updated within 90 days before the mailing date.

d. Be marked, sorted, and documented as specified in M660.

e. Be entered at the destination delivery unit appropriate to the delivery address on the corresponding mail, as a mailing subject to the applicable requirements in E610 and E650, as a

mailing using Express Mail or Priority Mail drop shipment under M072, or as a plant-verified drop shipment (PVDS) mailing under P950. Minimum volumes per destination are not required.

## 2.0 RATES

Each CMM piece is subject to the Presorted Regular or Nonprofit Standard Mail nonletter, nondestination entry basic rate plus the residual shape surcharge. CMM is not eligible for the parcel barcode discount.

## 3.0 SPECIAL SERVICES

CMM is not eligible for any special service.

### M012 Markings and Endorsements

\* \* \* \* \*

## 2.0 MARKINGS—FIRST-CLASS MAIL AND STANDARD MAIL

### 2.1 Placement

Markings must be placed as follows:

\* \* \* \* \*

[Revise 2.1b to read as follows:]

b. Other Markings. The rate-specific markings "AUTO," "AUTOOCR," "Presorted" (or "PRSRT"); "Single-Piece" (or "SNGLP") (First-Class Mail only); and "ECRLT," "ECRWSH," "ECRWSS," and "Customized MarketMail" (or "CUST MKTMAIL" or "CMM") (Standard Mail only) may be placed as follows:

(1) In the location specified in 2.1a.

(2) In the address area on the line directly above or two lines above the address if the marking appears alone or if no other information appears on the line with the marking except optional endorsement line information under M013 or carrier route package information under M014.

(3) If preceded by two asterisks (\*\*), the "AUTO," "AUTOOCR," "PRESORTED" (or "PRSRT"), "CUSTOMIZED MARKETMAIL" (or "CUST MKTMAIL" or "CMM"), or "Single-Piece" (or "SNGLP") marking also may be placed on the line directly above or two lines above the address in a mailer keyline or a manifest keyline, or it may be placed above the address and below the postage in an MLOC ink-jet printed date correction/meter drop shipment line. Alternatively, the "AUTO," "AUTOOCR," "PRSRT," or "SNGLP" marking may be placed to the left of the barcode clear zone (subject to the standards in C840) on letter-size pieces.
