The changes include adding an additional date by which the RAC can increase the tonnage allotted to a RDP; adding authority for the RAC to limit the amount of tonnage allotted to vine removal; modifying the application of the production cap for spur pruners under a RDP; adding authority for the RAC to condition a vine removal program with a producer's agreement not to replant and to compensate the RAC for damages if replanting occurs; revising the requirements for prioritizing and allocating tonnage for spur pruners under a RDP; allowing partial production units to be included in a RDP and adding authority for the RAC to specify provisions to maintain the integrity of the program; and specifying in the regulations the approval of a

program's provisions by the Department.

**SUPPLEMENTARY INFORMATION:** This rule is issued under Marketing Agreement and Order No. 989 (7 CFR part 989), both as amended, regulating the handling of raisins produced from grapes grown in California, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule modifies the administrative rules and regulations regarding the RDP specified under the order. The changes are designed to provide the RAC with additional flexibility when implementing a RDP, and provide the opportunity for all producers to participate in a program. The changes are as follows: Add an additional date by which the RAC can increase the tonnage allotted to a RDP; add authority for the RAC to limit the amount of tonnage allocated for vine removal; modify application of the production cap for spur pruners under a RDP; adding authority for the RAC to condition a vine removal program with a producer's agreement not to replant and to compensate the RAC for damages if replanting occurs; revise the requirements for prioritizing and allocating tonnage for spur pruners under a RDP; and allow partial production units to be included in a RDP and allow the RAC to specify provisions to maintain the integrity of the program.
