

applicants regarding the need for or advisability of particular types of anti-terrorism technologies, although no pre-approval of any particular technology may be given. The confidentiality provisions in § 25.8 shall be applicable to such consultations.

§ 25.4 Obligations of seller.

(a) *Liability insurance required.* Any person or entity that sells or otherwise provides a qualified anti-terrorism technology to Federal and non-Federal Government customers shall obtain liability insurance of such types and in such amounts as shall be required in accordance with this section and certified by the Under Secretary to satisfy otherwise compensable third-party claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against, response to, or recovery from, such act. The Under Secretary may request at any time (before or after the certification process established under this section) that the Seller or any other provider of qualified anti-terrorism technology submit any information that would:

(1) Assist in determining the amount of liability insurance required; or

(2) Show that the Seller or any other provider of qualified anti-terrorism technology otherwise has met all the requirements of this section.

(b) *Maximum amount.* For the total claims related to one such act of terrorism, the Seller will not be required to obtain liability insurance of more than the maximum amount of liability insurance reasonably available from private sources on the world market at prices and terms that will not unreasonably distort the sales price of the Seller's anti-terrorism technology. The Under Secretary will determine the amount of liability insurance required for each technology, or, to the extent feasible and appropriate, a particular group of technologies. The Under Secretary or his designee may find that—notwithstanding the level of risk exposure for a particular technology, or group of technologies—the maximum amount of liability insurance from private sources on the world market is set at a price or contingent on terms that will unreasonably distort the sales price of a Seller's technology, thereby necessitating liability insurance coverage below the maximum amount available. In determining the amount of liability insurance required, the Under Secretary may consider any factor, including, but not limited to, the following:

(1) The particular technology at issue;

(2) The amount of liability insurance the Seller maintained prior to application;

(3) The amount of liability insurance maintained by the Seller for other technologies or for the Seller's business as a whole;

(4) The amount of liability insurance typically maintained by sellers of comparable technologies;

(5) Information regarding the amount of liability insurance offered on the world market;

(6) Data and history regarding mass casualty losses;

(7) The intended use of the technology;

(8) The possible effects of the cost of insurance on the price of the product, and the possible consequences thereof for development, production, or deployment of the technology; and

(9) In the case of a Seller seeking approval to self-insure, the factors described in 48 CFR 28.308(d).

(c) *Scope of coverage.* Liability insurance obtained pursuant to this section shall, in addition to the Seller, protect the following, to the extent of their potential liability for involvement in the manufacture, qualification, sale, use, or operation of qualified anti-terrorism technologies deployed in defense against, response to, or recovery from, an act of terrorism:

(1) Contractors, subcontractors, suppliers, vendors and customers of the Seller.

(2) Contractors, subcontractors, suppliers, and vendors of the customer.

(d) *Third party claims.* Any liability insurance required to be obtained under this section shall provide coverage against third party claims arising out of, relating to, or resulting from an act of terrorism when the applicable qualified anti-terrorism technologies have been deployed in defense against, response to, or recovery from such act.

(e) *Reciprocal waiver of claims.* The Seller shall enter into a reciprocal waiver of claims with its contractors, subcontractors, suppliers, vendors, and customers, and contractors and subcontractors of the customers, involved in the manufacture, sale, use, or operation of qualified anti-terrorism technologies, under which each party to the waiver agrees to be responsible for losses, including business interruption losses, that it sustains, or for losses sustained by its own employees resulting from an activity resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against, response to, or recovery from such act.

(f) *Information to be submitted by the seller.* The Seller shall provide a

statement, executed by a duly authorized representative of the Seller, of all liability insurance coverage applicable to third-party claims arising out of, relating to, or resulting from an act of terrorism when the Seller's Qualified Anti-terrorism Technology has been deployed in defense against, response to, or recovery from such act, including:

(1) Names of insurance companies, policy numbers, and expiration dates;

(2) A description of the types and nature of such insurance (including the extent to which the Seller is self-insured or intends to self-insure);

(3) Dollar limits per occurrence and annually of such insurance, including any applicable sublimits;

(4) Deductibles or self-insured retentions, if any, that are applicable;

(5) Any relevant exclusions from coverage under such policies;

(6) The price for such insurance, if available, and the per-unit amount or percentage of such price directly related to liability coverage for the Seller's Qualified Anti-terrorism Technology deployed in defense against, or response to, or recovery from an act of terror;

(7) Where applicable, whether the liability insurance, in addition to the Seller, protects contractors, subcontractors, suppliers, vendors and customers of the Seller and contractors, subcontractors, suppliers, vendors and customers of the customer to the extent of their potential liability for involvement in the manufacture, qualification, sale, use or operation of Qualified Anti-terrorism Technologies deployed in defense against, response to, or recovery from an act of terrorism;

(8) Any limitations on such liability insurance; and

(9) In the case of a Seller seeking approval to self-insure, all of the information described in 48 CFR 28.308(a)(1) through (a)(10).

(g) *Seller's continuing obligation.* Within one year after the Under Secretary's certification required by paragraph (h) of this section, and each year thereafter, the Seller shall certify to the Under Secretary that the Seller has maintained the insurance required by the Under Secretary's certification. The Under Secretary may terminate the designation as a qualified anti-terrorism technology for the technology at issue if the Seller fails to provide the certification required by this paragraph or provides a false certification. The Under Secretary may also consider such failure to provide the certification or provision of a false certification when reviewing future applications from the same Seller. The Seller must also notify the Under Secretary of any changes in
