The land is not required for any Federal purpose. The lease/conveyance is consistent with current Bureau planning for this area and would be in the public interest. The lease/patent, when issued, will be subject to the provisions of the Recreation and Public Purposes Act and applicable regulations of the Secretary of the Interior and each will contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove such deposits from the same under applicable law and such regulations as the secretary of the Interior may prescribe.

And will be subject to:

1. All valid and existing rights.

Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Las Vegas Field Office, 4701 N. Torrey Pines Drive, Las Vegas, NV, or by calling (702) 515-5000.

Upon publication of this notice in the **Federal Register**, the above described land will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease/conveyance under the Recreation and Public Purposes Act,

leasing under the mineral leasing laws and disposal under the mineral material disposal laws.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments regarding the proposed lease/conveyance for classification of the lands to the Las Vegas Field Manager, Las Vegas Field Office, 4701 N. Torrey Pines Drive, Las Vegas, Nevada 89130-2301.

Classification Comments

Interested parties may submit comments involving the suitability of the land for the proposed schools. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Applications Comments

Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the lands for schools. Any adverse comments will be reviewed by the State Director who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, these realty actions will become the final determination of the Department of the Interior. The classification of the land described in this Notice will become effective 60 days from the date of publication in the **Federal Register**. The lands will not be offered for lease/conveyance until after the classification becomes effective.

Dated: June 16, 2003.

SUPPLEMENTARY INFORMATION:

Title: Survey Instruments—

Quantitative Description of Potential Impacts of OCS Activities on Bowhead Whale Hunting Activities in the Beaufort Sea.

OMB Control Number: 1010-NEW.

Abstract: The Minerals Management Service (MMS) of the U.S. Department of the Interior (USDOI) is responsible for oil and gas leasing on the Outer Continental Shelf (OCS) under the OCS Lands Act of 1953, the OCS Lands Act Amendments of 1978 (OCSLA), and the National Environmental Policy Act (NEPA) of 1969. OCSLA and NEPA require assessment of the effects of OCS oil and gas activities on adjacent human and physical environments. Therefore, USDOI/MMS acquires and analyzes and/or oversees collection and analysis of environmental, socio-economic, and socio-cultural information relevant to OCS decisions and uses that information in Environmental Assessments (EA) and Environmental Impact Statements (EIS).

This study is responsive to concerns among North Slope Borough (NSB) residents that oil exploration and development activities in general, and OCS activities in particular, are having an adverse effect on whale hunting and Inupiat life. There are three general areas of concern. First are the worries over the physical effects of seismic testing; the movement of barges, aircraft, and other transport vessels; and the erection of platforms. Many think these disruptions alter the feeding and migration patterns of bowhead whales
