7 CFR Part 989

[Docket No. FV03-989-4 FIR]

Raisins Produced From Grapes Grown in California; Final Free and Reserve Percentages for 2002-03 Crop Natural (Sun-dried) Seedless and Zante Currant Raisins

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department of Agriculture (USDA) is adopting, as a final rule, without change, an interim final rule that established final volume regulation percentages for 2002-03 crop Natural (sun-dried) Seedless (NS) and Zante Currant (ZC) raisins covered under the Federal marketing order for California raisins (order). The order regulates the handling of raisins produced from grapes grown in California and is locally administered by the Raisin Administrative Committee (Committee). The volume regulation percentages are 53 percent free and 47 percent reserve for NS raisins, and 80 percent free and 20 percent reserve for ZC raisins. The percentages are intended to help stabilize raisin supplies and prices, and strengthen market conditions.

EFFECTIVE DATE: Effective August 14, 2003. This rule applies to acquisitions of NS and ZC raisins from the 2002-2003 crop until the reserve raisins from that crop are disposed of under the order.

Maureen T. Pello, Senior Marketing Specialist, California Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 2202 Monterey Street, suite 102B, Fresno, California 93721; telephone: (559) 487-5901, Fax: (559) 487-5906; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250-0237; telephone: (202) 720-2491, Fax: (202) 720-8938.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington DC 20250-0237; telephone: (202) 720-2491, Fax: (202) 720-8938, or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement and Order No. 989 (7 CFR part 989), both as amended, regulating the handling of raisins produced from grapes grown in California, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

USDA is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. Under the order provisions now in effect, final free and reserve percentages may be established for raisins acquired by handlers during the crop year. This rule continues in effect final free and reserve percentages for NS and ZC raisins for the 2002-03 crop year, which began August 1, 2002, and ends July 31, 2003. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any

obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule continues in effect final volume regulation percentages for 2002-03 crop NS and ZC raisins covered under the order. The percentages were established through an interim final rule published on April 2, 2003 (68 FR 15926). The volume regulation percentages are 53 percent free and 47 percent reserve for NS raisins, and 80 percent free and 20 percent reserve for ZC raisins. Free tonnage raisins may be sold by handlers to any market. Reserve raisins must be held in a pool for the account of the Committee and are disposed of through various programs authorized under the order. For example, reserve raisins may be sold by the Committee to handlers for free use or to replace part of the free tonnage raisins they exported; used in diversion programs; carried over as a hedge against a short crop; or disposed of in other outlets not competitive with those for free tonnage raisins, such as government purchase, distilleries, or animal feed.

The volume regulation percentages are intended to help stabilize raisin supplies and prices, and strengthen market conditions. The Committee unanimously recommended ZC final percentages on January 29, 2003, and NS final percentages on February 13, 2003.

Computation of Trade Demands

Section 989.54 of the order prescribes procedures and time frames to be followed in establishing volume regulation. This includes methodology used to calculate percentages. Pursuant to § 989.54(a) of the order, the Committee met on August 14, 2002, to review shipment and inventory data, and other matters relating to the supplies of raisins of all varietal types. The Committee computed a trade demand for each varietal type for which a free tonnage percentage might be recommended. Trade demand is computed using a formula specified in the order and, for each varietal type, is equal to 90 percent of the prior year's
