

Commission shall use the term as imposed without deducting any good time credits that may have been earned by the offender prior to his release from prison. In no case shall the total of successive terms of imprisonment imposed by the Commission exceed the maximum authorized term of imprisonment at the first revocation.

(2) For example, if the maximum authorized term of imprisonment at the first revocation is three years and the original maximum authorized term of supervised release is five years, the Commission at the first revocation may have imposed a one-year term of imprisonment and a further four-year term of supervised release. At the second revocation, the maximum authorized term of imprisonment will be two years, *i.e.*, the maximum authorized term of imprisonment at the first revocation (three years) minus the one-year term of imprisonment that was imposed at the first revocation.

(e) *Further term of supervised release; successive revocations.* (1) When the Commission revokes a term of supervised release that was imposed by the Commission following a previous revocation of supervised release, the Commission may also impose a further term of supervised release. The maximum authorized length of such a term of supervised release shall be the original maximum authorized term of supervised release permitted by paragraph (b) of this section, less the total of the terms of imprisonment imposed by the Commission on the same sentence (including the term of imprisonment imposed in the current revocation).

(2) For example, if the maximum authorized term of imprisonment at the first revocation is three years and the original maximum authorized term of supervised release is five years, the Commission at the first revocation may have imposed a one-year term of imprisonment and a four-year further term of supervised release. If, at a second revocation, the Commission imposes another one-year term of imprisonment, the maximum authorized further term of supervised release will be three years (the original five-year period minus the total of two years of imprisonment).

(f) *Effect of sentencing court imposing less than the original maximum authorized term of supervised release.* If the Commission has revoked supervised release, the maximum authorized period of further supervised release is determined by reference to the original maximum authorized term permitted for the offense of conviction (see paragraph (b) of this section), even if the

sentencing court did not impose the original maximum authorized term permitted for the offense of conviction.

§ 2.220 Appeal.

A supervised releasee may appeal to the Commission a decision to revoke supervised release, impose a term of imprisonment, or impose a new term of supervised release after revocation. The provisions of § 2.26 on the time limits for filing and deciding the appeal, the grounds for appeal, the format of the appeal, the limits regarding the submission of exhibits, and voting requirements apply to an appeal submitted under this section.

Dated: June 30, 2003.

Edward F. Reilly, Jr.,

Chairman, U.S. Parole Commission.

BILLING CODE 4410-31-P

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in August 2003. Interest assumptions are also published on the PBGC's Web site (<http://www.pbgc.gov>).

EFFECTIVE DATE: August 1, 2003.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of

the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to Part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to Part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to Part 4022).

Accordingly, this amendment (1) adds to Appendix B to Part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during August 2003, (2) adds to Appendix B to Part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during August 2003, and (3) adds to Appendix C to Part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during August 2003.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 4.40 percent for the first 20 years following the valuation date and 5.25 percent thereafter. These interest assumptions represent an increase (from those in effect for July 2003) of 0.10 percent for the first 20 years following the valuation date and are otherwise unchanged.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 3.00 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. These interest assumptions are unchanged from those in effect for July 2003.

For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that
