Cymoxanil; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of cymoxanil in or on hop, dried cones; lettuce, head; imported lychee; vegetable, cucurbit, group 9; and vegetable, fruiting, group 8. The Interregional Research Project Number 4 (IR-4), the Taipai Economic and Cultural Representative Office, and E.I du Pont Nemours and Company requested these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act (FQPA) of 1996. EPA is also deleting the time-limited tolerance for hop, dried cones established in connection with use of the pesticide under section 18 emergency exemptions and the tolerance for imported tomato. These tolerances are no longer needed since this rule establishes tolerances in support of the U.S. registration for hops and tomato.

DATES: This regulation is effective July 16, 2003. Objections and requests for hearings, identified by docket ID number OPP–2003–0219, must be received on or before September 15, 2003.

ADDRESSES: Written objections and hearing requests may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit VI. of the **SUPPLEMENTARY INFORMATION**.
