FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 54

[CC Docket No. 96-45; FCC 03-115]

Federal-State Joint Board on Universal Service; Promoting Deployment and Subscribership in Unserved and Underserved Areas, Including Tribal and Insular Areas

AGENCY: Federal Communications Commission.

ACTION: Final rule; petitions for reconsideration.

SUMMARY: In this document, the Commission addresses the requests of several petitioners to reconsider portions of the *Twelfth Report and Order and Further Notice of Proposed Rulemaking*, adopting rules to provide additional, targeted universal service support to low-income consumers on tribal lands and establishing a framework for the resolution of eligible telecommunications carrier (ETC) designations. The Commission also concludes that the definition of "reservation" for purposes of the universal service programs remains the same as that adopted in the *Twelfth Report and Order and Further Notice of Proposed Rulemaking*. The Commission addresses several requests for reconsideration relating to the rule amendments to the universal service low-income programs adopted in the *Twelfth Report and Order and Further Notice of Proposed Rulemaking*. The Commission also clarifies, on its own motion, the Commission's rules regarding the qualification criteria for enhanced Lifeline and Link-Up service. In addition, the Commission declines to adopt a rule that would require resolution of the merits of any request for ETC designation within six months of the filing date. The Commission also declines to extend the enhanced low-income programs to the Northern Mariana Islands.

DATES: Effective August 15, 2003.

I. Introduction

1. In this Order, we address the requests of several petitioners to reconsider portions of the *Twelfth Report and Order and Further Notice of Proposed Rulemaking*, 65 FR 47941, August 4, 2003, adopting rules to provide additional, targeted universal service support to low-income consumers on tribal lands and establishing a framework for the resolution of Eligible Telecommunications Carrier (ETC) designations under section 214(e)(6) of the Communications Act of 1934, as amended (the Act). The advancement of universal service on tribal lands remains a major policy goal of this Commission. Through our on-going dialogue with the tribes, as most recently exemplified by the Commission's launch of the Indian Telecommunications Initiatives in Phoenix, Arizona on September 19, 2002, the Commission continues in its efforts to promote telecommunications subscribership within American Indian and Alaskan Native tribal communities.

2. We affirm that the framework adopted by the Commission for resolution of ETC designations on tribal lands provides a reasonable means to facilitate the expeditious resolution of such requests, while balancing the respective federal, state, and tribal interests. We also conclude that the definition of "reservation" for purposes of the universal service programs remains the same as that adopted in the *Twelfth Report and Order and Further Notice of Proposed Rulemaking* despite the Bureau of Indian Affairs' (BIA) subsequent modification of that definition for purposes of its direct assistance programs. We address several requests for reconsideration relating to the rule amendments to the universal service low-income programs adopted in the *Twelfth Report and Order and*
