There are certain requirements for all financial statements, regardless of the amount of the transaction. These are as follows:

When interim statements are provided, also provide interim statements for the same interim period for the previous year (for comparative purposes).
- ii) ☐ A summary of significant accounting principles must accompany all financial statements. These should outline, at a minimum, the depreciation methods and rates, valuation methods for inventory, fixed assets and investments and the inflation accounting method used, if any. For construction companies, a description of the revenue recognition method should be included. Additionally, financial statements should break out depreciation expense, gross interest expense, tax expense and current maturities of long-term financial institution or supplier debt, if any.
- iii) ☐ For all financial statements that present combined or consolidated results, provide the percentage of total assets, total liabilities, tangible net worth, sales, and net income represented by each entity that is participating in the transaction as the buyer, borrower, guarantor or end-user.
