Case History

This investigation was initiated on February 20, 2003.¹ *See Notice of Initiation of Antidumping Duty Investigations: Prestressed Concrete Steel Wire Strand From Brazil, India, the Republic of Korea, Mexico, and Thailand*, 68 FR 9050 (February 27, 2003) (*Initiation Notice*). Since the initiation of the investigation, the following events have occurred:

The U.S. Department of Commerce (the Department) set aside a period for all interested parties to raise issues regarding product coverage. *See*

Initiation Notice, 68 FR at 9050. No comments were received from interested parties in this investigation.

The Department issued a letter on March 7, 2003, to interested parties in all of the concurrent PC strand antidumping investigations, providing an opportunity to comment on the Department's proposed model match characteristics and its hierarchy of characteristics. The petitioners submitted comments on March 18 and 20, 2003. The Department also received comments on model matching from respondents in the concurrent investigation involving Mexico on March 18, 2003. These comments were taken into consideration by the Department in developing the model matching characteristics and hierarchy for all of the PC strand antidumping investigations.

On March 17, 2003, the United States International Trade Commission (ITC) preliminarily determined that there is a reasonable indication that imports of the products subject to this investigation are materially injuring an industry in the United States producing the domestic like product. *See Prestressed Concrete Steel Wire Strand From Brazil, India, Korea, Mexico, and Thailand*, 68 FR 13952 (March 21, 2003).

On April 4, 2003, the Department issued its antidumping questionnaire to Tata SSL Ltd.² The Department was subsequently informed that Tata SSL Ltd. had been retroactively amalgamated with Tata Iron and Steel Co. Ltd. (TISCO) and was now known as TISCO (Wire Division).³ We received responses to Sections A-D of the antidumping questionnaire from TISCO and issued it supplementary questionnaires where appropriate. TISCO failed to respond to the Department's second supplemental Section D questionnaire, issued on July 1, 2003, in which the Department

² Section A of the questionnaire requests general information concerning a company's corporate structure and business practices, the merchandise under investigation that it sells, and the manner in which it sells that merchandise in all of its markets. Section B requests a complete listing of all home market sales or, if the home market is not viable, of sales in the most appropriate third-country market (this section is not applicable to respondents in non-market economy cases). Section C requests a complete listing of U.S. sales. Section D requests information on the cost of production of the foreign like product and the constructed value of the merchandise under investigation. Section E requests information on further manufacturing.

³ On May 3, 2003, the respondent notified the Department that under a "Scheme of Amalgamation," Tata SSL Ltd. and Tata Iron and Steel Co. Ltd. were united as a single company, with Tata SSL Ltd. becoming known as Tata Iron and Steel Co. Ltd. (Wire Division). This amalgamation was approved by the High Court of Judicature at Bombay on April 21, 2003 with an effective date retroactive to April 1, 2002.

¹ The petitioners in this investigation are American Spring Wire Corp., Insteel Wire Products Company, and Sumiden Wire Products Corp.
