Form Number(s): None.

Agency Approval Number: 0651-0024.

Type of Request: Revision of a currently approved collection.

Burden: 29,856 hours annually.

Number of Respondents: 23,750 responses per year.

Avg. Hours Per Response: The USPTO estimates that it will take the public approximately 1 hour and 20 minutes (1.33 hours) to gather the necessary information, prepare the paper sequence listing, and submit it to the USPTO. The USPTO also estimates that it will take the public approximately 1 hour to prepare and submit a sequence listing on compact disc (CD) and approximately 10 minutes (0.17 hours) to prepare and submit a sequence listing electronically over the Internet.

Needs and Uses: The guidelines for submitting sequence listing data for national and international biotechnology patent applications are outlined in 37 CFR 1.821-1.825 and World Intellectual Property Organization (WIPO) Standard ST.25 (1998). Applicants must submit a copy of the sequence listing in the prescribed standard format and another copy that is in computer-readable form. The sequence listings may be submitted on paper, CD, or electronically over the Internet. The USPTO uses the sequence listings to determine the patentability of associated applications and to support the publication of applications and issued patents. Applicants use sequence data when preparing biotechnology patent applications and may also search sequence listings after publication.
