A copy of this document can be viewed or obtained from the public docket. Information pertaining to accessing the materials in the docket is explained below. None of the comments suggested that EPA not conduct the proposed surveys. The comments were from States, a U.S. Territory, non governmental organizations, trade associations, a marine sanitation device (MSD) manufacturer, a laboratory, and private citizens. The vast majority of the comments provided information regarding the potential questions that the surveys should ask. Some provided information regarding the perception of the effectiveness of the current no-discharge zones (NDZs) and MSDs, and additional comments provided recommendations on how EPA should modify the current Vessel Sewage Discharge Program. Lastly, some of the respondents offered their assistance in this effort.
