

are voluntarily submitted to the ITC by manufacturers, importers, processors, and users of chemicals recommended by the ITC. The ITC reviews this information and determines if data needs should be revised, if chemicals should be removed from the *Priority Testing List* or if recommendations should be changed to designations. To avoid duplicate reporting, the ITC carefully coordinates its information solicitations and reporting requirements with other national and international testing programs, e.g., the National Toxicology Program (NTP) (<http://ntp-server.niehs.nih.gov/>), the Organization for Economic Cooperation and Development (OECD) Screening Information Data Set (SIDS) Program (<http://www.oecd.org>) and EPA's High Production Volume (HPV) Challenge Program (<http://www.epa.gov/opptintr/chemrtk/volchall.htm>).

#### C. Previous and New Requests to Add Chemicals to TSCA Section 8(a) PAIR Rules

The following chemicals will be added to a TSCA section 8(a) PAIR rule: Benzenamine, 3-chloro-2,6-dinitro-N,N-dipropyl-4-(trifluoromethyl)- (CAS No. 29091-20-1) (Ref. 2); stannane, dimethylbis[(1-oxoneodecyl)oxy]- (CAS No. 68928-76-7), benzene, 1,3,5-tribromo-2-(2-propenyloxy)- (CAS No. 3278-89-5) and 1-triazene, 1,3-diphenyl- (CAS No. 136-35-6) (Ref. 3); and 43 vanadium compounds (Ref. 4). At this time, there are no new requests to add chemicals to the TSCA section 8(a) PAIR rule.

#### D. Previous and New Requests to Add Chemicals to TSCA Section 8(d) HaSDR Rules

The ITC has requested in previous reports to the EPA Administrator that the following chemicals be added to TSCA section 8(d) HaSDR rules: H-1,2,4-triazole-3-thione, 5-amino-1,2-dihydro- (3-amino-5-mercapto-1,2,4-triazole) (CAS No. 16691-43-3) and imidazol[4,5-d]imidazole-2,5-(1H,3H)-dione, tetrahydro- (glycoluril) (CAS No. 496-46-8) (Ref. 5); 9 indium compounds (Ref. 6); benzenamine, 3-chloro-2,6-dinitro-N,N-dipropyl-4-(trifluoromethyl)- (CAS No. 29091-20-1) (Ref. 2); and stannane, dimethylbis[(1-oxoneodecyl)oxy]- (CAS No. 68928-76-7), benzene, 1,3,5-tribromo-2-(2-propenyloxy)- (CAS No. 3278-89-5) and 1-triazene, 1,3-diphenyl- (CAS No. 136-35-6) (Ref. 3). At this time, the ITC is requesting that the EPA not add vanadium compounds to the TSCA section 8(d) HaSDR rule to allow producers and importers of vanadium compounds an opportunity to voluntarily provide the information requested in section IV.A.3. of the 51<sup>st</sup> ITC Report (Ref. 4).

For 3H-1,2,4-triazole-3-thione, 5-amino-1,2-dihydro- (3-amino-5-mercapto-1,2,4-triazole) and imidazo[4,5-d]imidazole-2,5-(1H,3H)-dione, tetrahydro- (glycoluril), the ITC requests that the TSCA section 8(d) HaSDR rule require the submission of pharmacokinetics, subchronic toxicity, immunotoxicity, genotoxicity, carcinogenicity, reproductive effects and developmental toxicity, and ecological effects studies. Only studies for which 3-amino-5-mercapto-1,2,4-triazole or glycoluril is  $\geq 90\%$  of the test substance by weight should be submitted.

For the 9 indium compounds remaining on the *Priority Testing List*, the ITC requests that the TSCA section 8(d) HaSDR rule require the submission of pharmacokinetics, genotoxicity, subchronic and chronic toxicity, reproductive effects and developmental toxicity studies. Only studies where indium compounds are  $\geq 90\%$  of the test substance by weight should be submitted. Indium tin oxide was inadvertently listed in the 51<sup>st</sup> ITC Report with CAS No. 17906-67-7. The correct CAS number for indium tin oxide is 50926-11-9 as listed in the 47<sup>th</sup> ITC Report. Indium tin oxide with CAS No. 50926-11-9 will be added to the TSCA section 8(d) HaSDR rule.

For benzenamine, 3-chloro-2,6-dinitro-N,N-dipropyl-4- (trifluoromethyl)-, the ITC requests that the TSCA section 8(d) HaSDR rule require the submission of biodegradation, bioconcentration, pharmacokinetics, subchronic toxicity, mutagenicity, reproductive effects and developmental toxicity, carcinogenicity, and ecological effects studies. Only studies where benzenamine, 3-chloro-2,6-dinitro-N,N-dipropyl-4- (trifluoromethyl)- is  $\geq 90\%$  of the test substance by weight should be submitted.

For stannane, dimethylbis[(1-oxoneodecyl)oxy]-, the ITC requests that the TSCA section 8(d) HaSDR rule require the submission of hydrolysis, biodegradation, bioconcentration, pharmacokinetics, subchronic toxicity, mutagenicity, neurotoxicity, reproductive effects and developmental toxicity, carcinogenicity, and ecological effects studies. Only studies where stannane, dimethylbis[(1-oxoneodecyl)oxy]- is  $\geq 90\%$  of the test substance by weight should be submitted.

For benzene, 1,3,5-tribromo-2-(2-propenyloxy)-, the ITC requests that the TSCA section 8(d) HaSDR rule require the submission of biodegradation, bioconcentration, pharmacokinetics, subchronic toxicity, neurotoxicity, reproductive effects and developmental toxicity, carcinogenicity, and ecological effects studies. Only studies where benzene, 1,3,5-tribromo-2-(2-propenyloxy)- is  $\geq 90\%$  of the test substance by weight should be submitted.

For 1-triazene, 1,3-diphenyl-, the ITC requests that the TSCA section 8(d) HaSDR rule require the submission of pharmacokinetics, genotoxicity, subchronic and chronic toxicity, reproductive effects and developmental toxicity studies. Only studies where 1-triazene, 1,3-diphenyl- is  $\geq 90\%$  of the test substance by weight should be submitted.

At this time, there are no new requests to add chemicals to the TSCA Section 8(a) HaSDR Rule.

### III. ITC's Activities During this Reporting Period (November 2002 to May 2003): Voluntary Information Submissions Innovative Online Network (VISION)

In its 51<sup>st</sup> ITC Report, the ITC announced that it would consider revising its voluntary information submission procedures to encourage greater and more efficient use of its VISION. The ITC has reviewed its voluntary information submission

procedures and considered industry comments discussed in the 51<sup>st</sup> ITC Report. At this time, the ITC is revising the VISION as outlined in this unit. The revised VISION will be accessible on the ITC web site following submission of this 52<sup>nd</sup> ITC Report to the EPA Administrator.

1. The ITC will continue to acknowledge trade organizations and companies that voluntarily submit information in response to an ITC solicitation. During this reporting period, the ITC acknowledges the voluntary submissions of information from the Color Pigments Manufacturers Association on DEBITS chemicals and vanadium compounds and from the Indium Corporation of America on indium compounds as requested in previous ITC reports.

2. The ITC has requested that the EPA include ITC's solicitations for voluntary information submissions in the summary and body of the preambles that are prepared for publication of the ITC's reports in the **Federal Register**. This change should allow companies to readily determine if the ITC is soliciting voluntary information for chemicals they produce or import.

3. The ITC will notify major chemical trade associations by e-mail that new ITC reports have been posted to the ITC's web site (<http://www.epa.gov/opptintr/itc/>). The e-mails will include a summary of the report and announcements of new information solicitations. This change should increase awareness of the ITC information solicitations and encourage voluntary submission of data.

4. The voluntary information submissions should be submitted within 90 days of the date the ITC report is published in the **Federal Register**. Failure to voluntarily submit information in a timely manner may lead ITC to request that the EPA promulgate the appropriate TSCA section 8(a) and 8(d) reporting rules in a subsequent report to the EPA Administrator.

5. The ITC will accept hard copy or electronic voluntary information submissions. All submissions should be titled as ITC-FYI and should bear the document control number or document ID number of the ITC report for which the submission is being provided, e.g., the docket ID number for the 50<sup>th</sup> ITC Report is OPPT-2002-0026. Confidential Business Information (CBI) must be submitted as hard copies. Both sanitized (no CBI) and unsanitized (CBI) versions must be provided.

6. Information submitted voluntarily will not have to be re-submitted under a TSCA section 8(d) rule.

7. Voluntary information may be submitted by mail, in person or by courier, or electronically.

a. *By mail.* Document Control Office (7407), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

b. *In person or by courier.* OPPT Document Control Office (DCO) in EPA East Bldg., Rm. 6428, 1201 Constitution Ave., NW., Washington, DC. The DCO is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the DCO is (202) 564-8930.
