

Some commenters felt that the Board had an overly narrow view of airport proprietors' authority. We disagree. This part of the interim policy statement remains an accurate statement of a fundamental principle of law: Airport proprietors clearly have rights, but those rights are not unfettered or unconstrained. They must be exercised in a reasonable, nondiscriminatory manner, and designed to achieve legitimate objectives. *Arapahoe County Public Airport Authority v. FAA*, 242 F.3d 1213, 1223 (10th Cir. 2001); *American Airlines v. DOT*, 202 F.3d 788, 806–08 (5th Cir. 2000); *National Helicopter Corp. v. City of New York*, 137 F.3d 81, 89 (2nd Cir. 1998). It is also true that airport proprietors may not impede federal airspace management interests or unreasonably interfere with interstate or foreign commerce. But these statements are so basic and so broad that they are of limited utility in any particular setting; they can only frame the proper inquiry. Questions about the scope and exercise of proprietary rights, like preemption generally, are most often fact-specific. *Arapahoe County*, 242 F.3d at 1223. Thus, litigation and administrative proceedings will likely continue to refine the contours of this authority, and no single policy statement is apt to comprehend or anticipate its precise parameters.

In sum, the interim policy statement either discusses subjects that have been overtaken by events in the last twenty-five years since the ADA was enacted, or offers statements so general in nature that their value is limited where, as here, new issues continue to evolve. The policy statement has provided assistance in the past, but it has increasingly become less helpful as the industry has changed and evolved over the years. In these circumstances the Department has decided to remove the interim policy statement at 49 CFR 399.110 and end this proceeding. We intend to continue to monitor developments, and to take action to apply the ADA's preemption provision when that is appropriate in individual fact-specific situations. This approach has proven itself in guarding against state and local government actions that improperly interfere with the deregulation of the airline industry. See *Wolens and Arapahoe County*, both *supra*.

Regulatory Analyses and Notices

This final rule is not considered a significant regulatory action under section 3(f) of Executive Order 12866, and therefore it was not reviewed by the Office of Management and Budget. This

rule is not considered significant under the Department's regulatory policies and procedures. The change is being made solely for the purposes of eliminating an obsolete statement.

The Department also has determined that this rule has no economic impact. This rule does not impose unfunded mandates or requirements that will have any impact on the quality of the human environment.

Executive Order 12612

The Department has analyzed this rule under the principles and criteria contained in Executive Order 12612 ("Federalism") and has determined that the rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Paperwork Reduction Act

This action does not contain information collection requirements for purposes of the Paperwork Reduction Act of 1995.

Regulatory Flexibility Act

The Department has evaluated the effects of this rule on small entities. I certify this rule will not have a significant economic impact on a substantial number of small entities, because we are merely removing an obsolete policy statement.

Disposition of Comments to Final Rules: Noise Certification Standards for Subsonic Jet and Subsonic Transport Category Large Airplanes; Transition to an All Stage 3 Fleet Operating in the 48 Contiguous United States and the District of Columbia; and, Equivalent Safety Provisions for Fuel Tank System Fault Tolerance Evaluations (SFAR 88)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rules; disposition of comments.

SUMMARY: The FAA is providing response to public comments on three immediately adopted rules. The effect of this action is to close these rulemaking actions. This action is part of our effort to address recommendations of the Government Accounting Office and the Management Advisory Council to reduce the number of items in the Regulatory Agenda, and to accurately reflect agency initiatives.

SUPPLEMENTARY INFORMATION:

Noise Certification Standards for Subsonic Jet and Subsonic Transport Category Large Airplanes, RIN 2120–AH03

On July 8, 2002, the FAA published a final rule (67 FR 45193), entitled "Noise Certification Standards for Subsonic Jet Airplanes and Subsonic Transport Category Large Airplanes". This immediately adopted rule amended the noise certification standards for subsonic jet airplanes and subsonic transport category large airplanes. These changes were based on the joint effort of the FAA, the European Joint Aviation Authorities (JAA), and the Aviation Rulemaking Advisory Committee. The intent of the change was to harmonize the U.S. noise certification regulations and the European Joint Aviation Requirements for subsonic jet airplanes and subsonic transport category large airplanes to
