

New York, Utah, and Wisconsin. Michigan leads the nation in tart cherry acreage with 74 percent of the total. Michigan produces about 75 percent of the U.S. tart cherry crop each year. Tart cherry acreage in Michigan decreased from 28,500 acres in 2000–2001, to 27,400 acres in 2002–2003.

In deriving the recommended assessment rate, the Board estimated assessable tart cherry production for the fiscal period at 260 million pounds. Cherries used for handler destruction and grower diversion outlets are exempt from assessment obligations. Funds in the reserve (approximately \$66,000) will be kept within the approximately six months' operational expenses as recommended by the Board which would be consistent with the order (§ 930.42(a)).

While this action will impose additional costs on handlers, the costs are in the form of assessments which are applied uniformly. Some of the costs may also be passed on to producers. However, these costs are offset by the benefits derived from the operation of the marketing order. The Board's meeting was widely publicized throughout the tart cherry industry and all interested persons were invited to attend the meeting and participate in Board deliberations on all issues. Like all Board meetings, the January 23, 2003, meeting was a public meeting and all entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

This action will impose no additional reporting or recordkeeping requirements on either small or large tart cherry handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/maob/html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 30-day comment period is provided to allow interested persons to respond to this proposed rule. Thirty days is deemed appropriate because: (1) The 2003–2004 fiscal begins on July 1, 2003, and ends on June 30, 2004, and the

marketing order requires that the rate of assessment for each fiscal period apply to all assessable tart cherries handled during such fiscal period; (2) the Board needs the funds to operate the program; and (3) handlers are aware of this action which was unanimously recommended by the Board at a public meeting. All written comments timely received will be considered before a final determination is made on this matter.

List of Subjects in 7 CFR Part 930

Marketing agreements, Reporting and recordkeeping requirements, Tart cherries.

For the reasons set forth in the preamble, 7 CFR part 930 is proposed to be amended as follows:

PART 930—TART CHERRIES GROWN IN THE STATES OF MICHIGAN, NEW YORK, PENNSYLVANIA, OREGON, UTAH, WASHINGTON, AND WISCONSIN

1. The authority citation for 7 CFR part 930 continues to read as follows:

Authority: 7 U.S.C. 601–674.

2. Section 930.200 is revised to read as follows:

§ 930.200 Handler assessment rate.

On and after July 1, 2003, the assessment rate imposed on handlers shall be \$0.0021 per pound of tart cherries grown in the production area and utilized in the production of tart cherry products.

Dated: July 22, 2003.

A.J. Yates,

Administrator, Agricultural Marketing Services.

BILLING CODE 3410–02–M

SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

Small Business Size Standards; Waiver of the Nonmanufacturer Rule

AGENCY: U.S. Small Business Administration.

ACTION: Notice of intent to waive the nonmanufacturer rule for ammunition (except small arms) manufacturing.

SUMMARY: The U.S. Small Business Administration (SBA) is considering granting a waiver of the Nonmanufacturer Rule for Ammunition (Except Small Arms) Manufacturing. The basis for waivers is that no small business manufacturers are supplying these classes of products to the Federal government. The effect of a waiver

would be to allow otherwise qualified regular dealers to supply the products of any domestic manufacturer on a Federal contract set aside for small businesses or awarded through the SBA 8(a) Program. The purpose of this notice is to solicit comments and potential source information from interested parties.

DATES: Comments and sources must be submitted on or before August 8, 2003.

ADDRESSES: Address comments to: Edith Butler, Program Analyst, U.S. Small Business Administration, 409 3rd Street, SW., Washington DC, 20416, Tel: (202) 619–0422.

FOR FURTHER INFORMATION CONTACT: Edith Butler, Program Analyst, (202) 619–0422 FAX (202) 205–7280.

SUPPLEMENTARY INFORMATION: Pub. L. 100–656, enacted on November 15, 1988, incorporated into the Small Business Act the previously existing regulation that recipients of Federal contracts set aside for small businesses or SBA 8(a) Program procurement must provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor. This requirement is commonly referred to as the Nonmanufacturer Rule. The SBA regulations imposing this requirement are found at 13 CFR 121.406(b). Section 303(h) of the law provides for waiver of this requirement by SBA for any “class of products” for which there are no small business manufacturers or processors in the Federal market.

To be considered available to participate in the Federal market on these classes of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months. The SBA defines “class of products” based on six digit coding systems.

The first coding system is the Office of Management and Budget *North American Industry Classification System (NAICS)*. The second is the Product and Service Code established by the Federal Procurement Data System.

The U.S. Small Business Administration is currently processing a request to waive the Nonmanufacturer Rule for Ammunition (Except Small Arms) Manufacturing, North American Industry Classification System (NAICS) 332993. The public is invited to comment or provide source information to SBA on the proposed waiver of the
