Subpart L—Restrictions on Telemarketing and Telephone Solicitation

* * * * *

■ 3. Section 64.1200 is revised to read as follows:

§ 64.1200 Delivery restrictions.

(a) No person or entity may: (1) Initiate any telephone call (other than a call made for emergency purposes or made with the prior express consent of the called party) using an automatic telephone dialing system or an artificial or prerecorded voice,

(i) To any emergency telephone line, including any 911 line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency;

(ii) To the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

(iii) To any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call.

(2) Initiate any telephone call to any residential line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call,

(i) Is made for emergency purposes,

(ii) Is not made for a commercial purpose,

(iii) Is made for a commercial purpose but does not include or introduce an unsolicited advertisement or constitute a telephone solicitation,

(iv) Is made to any person with whom the caller has an established business relationship at the time the call is made, or

(v) Is made by or on behalf of a tax-exempt nonprofit organization.

(3) Use a telephone facsimile machine, computer, or other device to send an unsolicited advertisement to a telephone facsimile machine,

(i) For purposes of paragraph (a)(3) of this section, a facsimile advertisement is not “unsolicited” if the recipient has granted the sender prior express invitation or permission to deliver the advertisement, as evidenced by a signed, written statement that includes the facsimile number to which any advertisements may be sent and clearly indicates the recipient's consent to receive such facsimile advertisements from the sender.

(ii) A facsimile broadcaster will be liable for violations of paragraph (a)(3) of this section if it demonstrates a high degree of involvement in, or actual notice of, the unlawful activity and fails to take steps to prevent such facsimile transmissions.

(4) Use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

(5) Disconnect an unanswered telemarketing call prior to at least 15 seconds or four (4) rings.

(6) Abandon more than three percent of all telemarketing calls that are answered live by a person, measured over a 30-day period. A call is “abandoned” if it is not connected to a live sales representative within two (2) seconds of the called person's completed greeting. Whenever a sales representative is not available to speak with the person answering the call, that person must receive, within two (2) seconds after the called person's completed greeting, a prerecorded identification message that states only the name and telephone number of the business, entity, or individual on whose behalf the call was placed, and that the call was for “telemarketing purposes.” The telephone number so provided must permit any individual to make a do-not-call request during regular business hours for the duration of the telemarketing campaign. The telephone number may not be a 900 number or any other number for which charges exceed local or long distance transmission charges. The seller or telemarketer must maintain records establishing compliance with paragraph (a)(6) of this section.

(i) A call for telemarketing purposes that delivers an artificial or prerecorded voice message to a residential telephone line that is assigned to a person who either has granted prior express consent for the call to be made or has an established business relationship with the caller shall not be considered an abandoned call if the message begins within two (2) seconds of the called person's completed greeting.

(ii) Calls made by or on behalf of tax-exempt nonprofit organizations are not covered by paragraph (a)(6) of this section.

(7) Use any technology to dial any telephone number for the purpose of determining whether the line is a facsimile or voice line.

(b) All artificial or prerecorded telephone messages shall:

(1) At the beginning of the message, state clearly the identity of the business, individual, or other entity that is responsible for initiating the call. If a business is responsible for initiating the call, the name under which the entity is registered to conduct business with the State Corporation Commission (or comparable regulatory authority) must be stated, and

(2) During or after the message, state clearly the telephone number (other than that of the autodialer or prerecorded message player that placed the call) of such business, other entity,
