

adequate to meet this fiscal period's budgeted expenses.

The major expenditures recommended by the Committee for the 2003–2004 fiscal period include \$8,200 for salaries, \$3,000 for rent expense, and \$1,750 for office expenses. Budgeted expenses for these items in 2002–2003 were also \$8,200, \$3,000, and \$1,750, respectively.

For the 2001–2002 fiscal period, the Committee recommended suspending the continuing assessment rate to bring the monetary reserve within program limits of approximately two fiscal periods' operating expenses (§ 948.78). At that time, the reserve fund contained about \$60,000. The Committee has been operating for the last two years by drawing income from its reserve. With a suspended assessment rate and a significant decrease in the number of potato producers and acreage in Area No. 3, the reserve has rapidly decreased to the current level of about \$24,000. The Committee would like to maintain the reserve at approximately this level, thus reinstatement of the assessment rate is needed.

The Committee discussed alternatives to this rule, including alternative expenditure levels. Lower assessment rates were considered, but not recommended because they would not generate the income necessary to administer the program with adequate reserves.

The assessment rate of \$0.03 per hundredweight of assessable potatoes was determined by dividing the total recommended budget by the quantity of assessable potatoes, estimated at 632,500 hundredweight for the 2003–2004 fiscal period. This is approximately \$1,402 above the anticipated expenses when combined with interest and rent income, which the Committee determined to be acceptable.

A review of historical information and preliminary information pertaining to the upcoming fiscal period indicates that the producer price for the 2003–2004 fiscal period could range between \$5.10 and \$6.70 per hundredweight of Colorado summer potatoes. Therefore, the estimated assessment revenue for the 2003–2004 fiscal period as a percentage of total producer revenue could range between 0.45 and 0.59 percent.

This action would increase the assessment obligation imposed on handlers. While assessments impose some additional costs on handlers, the costs are minimal and uniform on all handlers. Some of the additional costs may be passed on to producers. However, these costs would be offset by

the benefits derived by the operation of the marketing order. In addition, the Committee's meeting was widely publicized throughout the Area No. 3 Colorado potato industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the May 8, 2003, meeting was a public meeting and all entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

This proposed rule would impose no additional reporting or recordkeeping requirements on either small or large Colorado Area No. 3 potato handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 15-day comment period is provided to allow interested persons to respond to this proposed rule. Fifteen days is deemed appropriate because: (1) The 2003–2004 fiscal period began on July 1, 2003, and the marketing order requires that the rate of assessment for each fiscal period apply to all assessable potatoes handled during such fiscal period; (2) the Committee needs to have sufficient funds to pay for expenses which are incurred on a continuous basis; and (3) handlers are aware of this action which was recommended by the Committee at a public meeting and is similar to other assessment rate actions issued in past years.

7 CFR Part 987

[Docket No. FV03–987–1 PR]

Domestic Dates Produced or Packed in Riverside County, CA; Decreased Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule would decrease the assessment rate established for the California Date Administrative Committee (Committee) for the 2003–04 and subsequent crop years from \$0.90 to \$0.75 per hundredweight of dates handled. The Committee locally administers the marketing order that regulates the handling of dates produced or packed in Riverside County, California. Authorization to assess date handlers enables the Committee to incur expenses that are reasonable and necessary to administer the program. The crop year begins October 1 and ends September 30. The assessment rate would remain in effect indefinitely unless modified, suspended, or terminated.

DATES: Comments must be received by August 27, 2003.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250–0237; Fax: (202) 720–8938, or E-mail: moab.docketclerk@usda.gov.
