RIN: 2105-AD25

Review of Data Filed by Certificated or Commuter Air Carriers To Support Continuing Fitness Determinations Involving Citizenship Issues

AGENCY: Office of the Secretary, DOT.

ACTION: Advance notice of proposed rulemaking (ANPRM); request for comments.

SUMMARY: In response to a report by the Inspector General of the U.S. Department of Transportation, the Department is asking for comments on two issues relating to air carrier continuing fitness determinations involving citizenship issues. First, the Inspector General identified a list of criteria the Department typically uses to determine actual control of an air carrier

when evaluating the citizenship of an air carrier during a continuing fitness review. We seek comments on whether there are any other factors or criteria the Department routinely considers in its evaluations that should be added to this list. Second, the Department seeks comments on the need for a regulatory change to the requirements of 14 CFR part 204 applicable to certificated and commuter air carriers proposing to undergo a substantial change in operations, ownership, or management that may impact their U.S. citizenship status. The Inspector General found that the Department's informal process is not well-suited to complex, contentious, and controversial cases involving citizenship determinations and suggested that the Department allow greater transparency and public participation in such matters, including public notice when such a review is initiated and completed, as well as public access to information filed with the Department during such reviews.

DATES: Comments due on or before September 29, 2003. To the extent practicable, we will consider late-filed comments as we consider further action.
