

II. Obtaining Copies of the Supporting Statement for the Information Collection Request

The Supporting Statement for the Information Collection Request (ICR) is available for downloading from OSHA's Web site at www.osha.gov. The complete ICR, containing the OMB-83-I Form, Supporting Statement, and attachments, is available for inspection and copying in the OSHA Docket Office, at the address listed above. A printed copy of the ICR can be obtained by contacting Theda Kenney at (202) 693-2222.

Section 1910.269(a)(2)(vii) requires employers to certify that each employee received the training specified in paragraph (a)(2) of the standard. Employers must provide certification after an employee demonstrates proficiency in the work practices involved.

The training conducted under paragraph (a)(2) of the standard ensures that: Employees are familiar with the safety-related work practices, safety procedures, and other procedures, as well as any additional safety requirements in the standard, that pertain to their respective job assignments; employees are familiar with any other safety practices, including applicable emergency procedures (such as pole top and manhole rescue), addressed specifically by this standard that relate to their work and are necessary for their safety; and qualified employees have the skills and techniques necessary to distinguish exposed live parts from other parts of electric equipment, can determine the nominal voltage of the exposed live parts, know the minimum approach distances specified by the standard for voltages when exposed to them, and understand the proper use of special precautionary techniques, personal protective equipment, insulating and shielding materials, and insulated tools for working on or near exposed and energized parts of electric equipment.

Employees must receive additional training or retraining if: The supervision and annual inspections required by the standard indicate that they are not complying with the required safety-related work practices; new technology or equipment, or revised procedures, require the use of safety-related work practices that differ from their usual safety practices; and they use safety-related work practices that are different than their usual safety practices while performing job duties.

The training requirements of this standard inform employees of the safety hazards of electrical exposure and

provide them with the understanding required to minimize these safety hazards. In addition, employees receive proper training in safety-related work practices, safety procedures, and other safety requirements specified in the standard. The required training, therefore, provides information to employees that enables them to recognize how and where electrical and other hazardous exposures occur, and what steps to take, including work practices, to limit such exposure. The certification requirement specified by paragraph (a)(2)(vii) of the standard helps employers monitor the training their employees received and helps OSHA determine if employers provided the required training to their employees.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend the Office of Management and Budget's (OMB) approval of the information collection requirements specified by the standards on Electrical Protective Equipment (29 CFR 1910.137) and Electric Power Generation, Transmission, and Distribution (29 CFR 1910.269). The Agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of these information collection requirements.

Type of Review: Extension of a currently-approved information collection requirement.

Title: Electrical Protective Equipment (29 CFR 1910.137) and Electric Power Generation, Transmission, and Distribution (29 CFR 1910.269).

OMB Number: 1218-0190.

Affected Public: Business or other for-profit; not-for-profit institutions; State, local or tribal government; Federal Government.

Number of Respondents: 12,195.

Frequency of Recordkeeping: On occasion; semi-annually; annually.

Average Time per Response: Varies from one minute (.02 hour) to 15 minutes (.25 hour).

Total Annual Hours Requested: 22,685.

IV. Authority and Signature

John L. Henshaw, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506), and Secretary of Labor's Order No. 5-2002 (67 FR 65008).

Signed at Washington, DC on July 25, 2003.

John L. Henshaw,

Assistant Secretary of Labor.

BILLING CODE 4510-26-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. ICR-1218-0108 (2003)]

Standard on Ethylene Oxide (EtO) (29 CFR 1910.1047); Extension of the Office of Management and Budget's (OMB) Approval of Information-Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA); Labor.

ACTION: Request for comment.

SUMMARY: OSHA requests comment concerning its proposed extension of the information-collection requirements contained in the Ethylene Oxide Standard (the "EtO Standard") (29 CFR 1910.1047).

DATES: Comments must be submitted by the following dates:

Hard Copy: Your comments must be submitted (postmarked or received) by September 29, 2003.

Facsimile and electronic transmission: Your comments must be received by September 29, 2003.

ADDRESSES:

I. Submission of Comments

Regular mail, express delivery, hand-delivery, and messenger service: Submit your comments and attachments to the OSHA Docket Office, Docket No. ICR 1218-0108 (2003), Room N-2625, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. OSHA Docket Office and Department of Labor hours of operation are 8:15 a.m. to 4:45 p.m., est.
