SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

This proposal, in part, is to comply with Public Law 104-19, Section 504(a): establish and adhere to a schedule for the completion of National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) analysis and decision on all grazing allotments within the National Forest System unit for which NEPA is needed (Pub. L. 104-19, General Provision 1995). Upon completion of the NEPA analysis and decisions for the allotments, the terms and conditions of existing grazing permits will be modified, as necessary, to conform to such NEPA analysis. In addition, the purpose of the proposed action is to improve range condition and trend and achieve desired conditions within the project area through livestock grazing.

Proposed Action

The proposed action is to authorize continued livestock grazing, provide analysis and data to update allotment management plans (AMPs), and allow permitted livestock grazing that meets or moves existing resource conditions toward desired conditions on national forest grazing allotments while complying with applicable statutes. Adaptive management, which allows flexibility during the implementation of the grazing strategy, would allow managers to make adjustments and corrections to management based on monitoring. Three of the five Sheep and Goat grazing allotments in the Lost River Mountain Range are proposed to be converted to Cattle and Horse grazing allotments to resolve conflicts between domestic and bighorn sheep, if this use
