

improvements and construction of a sniper range in the Intensive Use Area, construction of 20 stream crossings in the Limited Use Area, and 3 deployment support facilities at England Industrial Airpark. The JRTC and Fort Polk also propose to create additional helicopter training areas and to conduct limited types of non-live fire training on private lands. Over a 10-year period, the Forest Service proposes to thin approximately 21,500 acres of upland pine stands in there Intensive Use Area to enhance habitat conditions for the endangered red-cockaded woodpecker.

The Army is the lead agency in preparing the DEIS and the Forest Service and FAA are cooperating agencies. The decision to be made by the Army, based on the results of the EIS and upon consideration of all relevant factors (including mission, cost, technical factors, and environmental considerations), is how to provide for military training, readiness, and facilities requirements while ensuring the sustained use of resources entrusted to the stewardship of the Army. The decision to be made by the Forest Service is what military activities and land uses may occur on national forest lands and how to balance military and non-military uses while sustaining resources entrusted to Forest Service stewardship. The FAA intends to relay on analyses in this EIS to make decisions concerning the Alexandria International Airport Layout Plan as it may be affected by three Army projects proposed to occur at the airport and consequent movement of aircraft, materiel, and personnel through that facility.

The DEIS identifies eight alternatives, two of which are analyzed in detail: (1) The proposed action, summarized above, and (2) a no action alternative.

Comments on the DEIS received during the 45-day comment period will be considered in preparing the Final EIS. Public meetings to solicit comments on the DEIS will be held Baton Rouge, Leesville, and Alexandria, Louisiana. Notification of the times and locations for the public meetings will be published in local newspapers at least 15 days in advance.
