

TABLE 1.—INSHELL PISTACHIO LOT SAMPLING INCREMENTS FOR AFLATOXIN CERTIFICATION

Lot weight (lbs.)	Number of incremental samples for the lot sample	Total weight of lot sample (kilograms)	Weight of test sample (kilograms)
220 or less	10	3.0	1.0
221–440	15	4.5	1.5
441–1100	20	6.0	2.0
1101–2200	30	9.0	3.0
2201–4400	40	12.0	4.0
4401–11,000	60	18.0	6.0
11,001–22,000	80	24.0	8.0
22,001–150,000	100	30.0	10.0

TABLE 2.—SHELLED PISTACHIO KERNEL LOT SAMPLING INCREMENTS FOR AFLATOXIN CERTIFICATION

Lot weight (lbs.)	Number of incremental samples for the lot sample	Total weight of lot sample (kilograms)	Weight of test sample (kilograms)
220 or less	10	1.5	.5
221–440	15	2.3	.75
441–1100	20	3.0	1.0
1101–2200	30	4.5	1.5
2201–4400	40	6.0	2.0
4401–11,000	60	9.0	3.0
11,001–22,000	80	12.0	4.0
22,001–150,000	100	15.0	5.0

(3) *Testing of pistachios.* Test samples shall be received and logged by an accredited laboratory and each test sample shall be prepared and analyzed using High Pressure Liquid Chromatograph (HPLC) and Vicam Method (Aflatest) or other methods as recommended by not less than seven members of the committee and approved by the Secretary. The aflatoxin level shall be calculated on a kernel weight basis.

(4) *Certification of lots “negative” as to aflatoxin.* Lots will be certified as “negative” on the aflatoxin inspection certificate if Test Sample #1 has an aflatoxin level at or below 5 ppb. If the aflatoxin level of Test Sample #1 is above 25 ppb, the lot fails and the accredited laboratory shall fill out a failed lot notification report as specified in § 983.40. If the aflatoxin level of Test Sample #1 is above 5 ppb and below 25 ppb, the accredited laboratory may at the handler’s discretion analyze Test Sample #2 and the test results of Test Samples #1 and #2 will be averaged. Alternatively, the handler may elect to withdraw the lot from testing, rework the lot, and re-submit it for testing after re-working. If the handler directs the laboratory to proceed with the analysis of Test Sample #2, a lot will be certified as negative to aflatoxin and the laboratory shall issue an aflatoxin inspection certificate if the averaged results of Test Samples #1 and Test

Sample #2 is at or below 10 ppb. If the averaged aflatoxin level of the Test Samples #1 and #2 is at or above 20 ppb, the lot fails and the accredited laboratory shall fill out a failed lot notification report as specified in § 983.40. If the averaged aflatoxin level of Test Samples #1 and #2 is above 10 ppb and below 20 ppb, the accredited laboratory may, at the handler’s discretion, analyze Test Sample #3 and the results of Test Samples #1, #2 and #3 will be averaged. Alternatively, the handler may elect to withdraw the lot from testing, re-work the lot, and re-submit it for testing after a re-working. If the handler directs the laboratory to proceed with the analysis of Test Sample #3, a lot will be certified as negative to aflatoxin and the laboratory shall issue an aflatoxin inspection certificate if the averaged results of Test Samples #1, #2 and #3 is at or below 15 ppb. If the averaged aflatoxin results of Test Samples #1, #2 and #3 is above 15 ppb, the lot fails and the accredited laboratory shall fill out a failed lot notification report as specified in § 983.40. The accreditation laboratory shall send a copy of the failed lot notification report to the committee and to the failed lot’s owner within 10 working days of any failure described in this section. If the lot is certified as negative as described in this section, the aflatoxin inspection certificate shall certify the lot using a certification form

identifying each lot by weight, grade and date. The certification expires for the lot or remainder of the lot after 12 months.

(5) *Certification of aflatoxin levels.* Each accredited laboratory shall complete aflatoxin testing and reporting and shall certify that every lot of California pistachios shipped domestically does not exceed the aflatoxin levels as required in § 983.38(d)(4). Each handler shall keep a record of each test, along with a record of final shipping disposition. These records must be maintained for three years beyond the crop year of their applicability, and are subject to audit by the Secretary or the committee at any time.

(6) *Test samples that are not used for analysis.* If a handler does not elect to use Test Samples #2 or #3 for certification purposes the handler may request the laboratory to return them to the handler.

§ 983.39 Minimum quality levels.

(a) *Maximum defect and minimum size.* No handler shall ship for domestic human consumption, pistachios that exceed permissible maximum defect and minimum size levels shown in the following Table 3.
