* The effects analysis in the Programmatic EIS/EIR would not be limited to these projects, and would include all short-term projects and actions that could be proposed under the Sacramento Valley Water Management Program.

This Programmatic EIS/EIR is expected to analyze the adverse and beneficial effects of implementing the Short-term Program on these environmental resources: surface water, water quality, fisheries, wildlife, vegetation, special-status species, land-use, cultural resources, air quality, noise, recreation, energy, visual impacts, and socioeconomic conditions. Analysis presented in the Programmatic EIS/EIR will also determine if environmental justice issues are associated with the Short-term Program. Although there are Indian Trust Assets (ITAs) in the counties where these projects are proposed, any association between these ITAs and the proposed projects and actions is unknown at this time. The following is a list of tribal trust land, per county where these projects are proposed:

- Shasta County—Redding Rancheria
- Butte County—Berry Creek Rancheria, Enterprise Rancheria, Mooretown Rancheria
- Glenn County—Grindstone Rancheria
- Colusa County—Colusa Rancheria, Cortina Rancheria

It is Reclamation's practice to make comments on a Notice of Intent, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There may also be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.
