

the range of issues raised and alternative concepts identified in the scoping period, the draft EIS likely will assess potential impacts of several alternative fire management plan strategies. Issues could include, but may not be limited to: hazards to firefighters, the public and property; effects on native plant and animal species; impacts to rare and endangered species; adverse impacts to cultural resources; risk of fire spread across the wildland-urban interface; increased use of mechanical and manual vegetation management techniques; air and water quality impacts; and effects on park visitors and neighbors.

Supplementary Information and Public Scoping: As described above, the NPS is undertaking a conservation planning and environmental impact analysis effort to identify issues and concerns which should be addressed in the future fire management program, to evaluate alternative concepts for fire management, and to obtain information regarding potential impacts and appropriate mitigation strategies which should be addressed in the EIS process.

As an early step in this undertaking, public scoping meetings will be conducted in the summer and early fall of 2003 in both San Mateo and Marin counties. The San Mateo County meeting will be held in conjunction with the regularly scheduled bi-monthly GGNRA public meeting on September 16, 2003. The meeting will be held at the Pacifica City Council Chambers, 2212 Beach Boulevard, Pacifica, California. An open-house to provide information and solicit input from the public will be conducted from 6–7 p.m. The EIS FMP will also be agendaized during the bi-monthly meeting (which begins at 7 p.m.). The Marin County meeting will be held September 24, 2003 from 7–9 p.m. at the U.S. Army Corps of Engineers San Francisco Bay Model Visitor's Center, 2100 Bridgeway, Sausalito, CA 94965. Information on these and all future public meetings, and status of the EIS process, will be regularly posted on the park's Web site at <http://www.nps.gov/goga/fire>; information will also be released through direct mailings and local and regional media. For those unable to attend either of these meetings, a scoping document will be available upon request. The main topics include: background information on the fire management program; a review of relevant policy and law affecting the fire management program; an assessment of current fire management needs; and the identification of issues and potential alternatives related to future fire management in the park.

All interested individuals, organizations, and agencies are encouraged to provide comments, suggestions, and relevant information. All written comments regarding the current and future fire management program must be postmarked or transmitted not later than 60 days following the date of publication of this notice in the **Federal Register**. Immediately upon determining this date it will be posted on the park's Web site. To request the scoping materials or to provide comments, please contact: Superintendent, Golden Gate National Recreation Area, Fort Mason, Building 201, San Francisco, CA 94123, Attn: Fire Management Plan. E-mail comments or requests for scoping materials and information on meeting locations may be transmitted electronically to GOGA_Public_Affairs@nps.gov (the subject line should indicate "EIS Scoping for FMP").

Our practice is to make comments, including respondent names and home addresses, available for public review during regular business hours. If individuals submitting comments request that their name and/or address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently at the beginning of the comments. There also may be circumstances wherein the NPS may withhold a respondent's identity as allowable by law. As always: NPS will make available to public inspection all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses; and, anonymous comments may not be considered.

Decision: Availability of the draft EIS and fire management plan for review and written comment will be announced in the **Federal Register**, as well as via direct mailing and announcements in local and regional media. At this time it's expected these documents will be available for public review in August 2004. Availability of the final EIS will be similarly announced (which at this time is expected to occur not sooner than January 2005). As a delegated EIS, the official responsible for the NEPA decision is the Regional Director, Pacific West Region, National Park Service. Subsequently, the official responsible for implementation would be the Superintendent, Golden Gate National Recreation Area.

Dated: July 25, 2003.

Arthur E. Eck,

Deputy Regional Director, Pacific West Region.
