**SUPPLEMENTARY INFORMATION:****Background**

Since the publication of the preliminary results of this review (see *Pure Magnesium from Canada; Preliminary Results of Antidumping Duty Administrative Review and Partial Rescission of Review*, 68 FR 20112 (April 24, 2003) ("Preliminary Results")), the following events have occurred:

The Department of Commerce ("the Department") invited interested parties to comment on the preliminary results of this review. No comments were received.

**Scope of the Order**

The product covered by this order is pure magnesium. Pure unwrought magnesium contains at least 99.8 percent magnesium by weight and is sold in various slab and ingot forms and sizes. Granular and secondary magnesium are excluded from the scope currently classifiable under subheading 8104.11.0000 of the Harmonized Tariff Schedule ("HTS"). The HTS item number is provided for convenience and for customs purposes. The written description of the scope of the order remains dispositive.

**Period of Review**

The period of review ("POR") is August 1, 2001, through July 31, 2002.

**Fair Value Comparisons**

To determine whether sales of pure magnesium from Canada to the United States were made at less than normal value ("NV"), we compared export price ("EP") to NV. Our calculations followed the methodologies described in the *Preliminary Results*.

**Final Results of the Review**

As a result of this review, we determine that the following percentage weighted-average margin exists for the period August 1, 2001, through July 31, 2002:

Manufacturer/Exporter	Margin
Norsk Hydro Canada Inc. ....	0.01 ( <i>de minimis</i> )

**Assessment Rates**

The Department shall determine, and the United States Bureau of Customs

and Border Protection ("BCBP") shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212 (b)(1), we have calculated exporter/importer (or customer)-specific assessment rates for merchandise subject to this review. To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer (or customer)-specific *ad valorem* rates by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total value of the sales to that importer (or customer). Where an importer (or customer)-specific *ad valorem* rate was greater than *de minimis*, we calculated a per unit assessment rate by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total quantity sold to that importer (or customer).

Pending the final disposition of a NAFTA panel appeal by NHCI, the Department will not order the liquidation of entries of pure magnesium from Canada exported by NHCI on or after August 1, 2000, at this time. Liquidation will occur at the rates described in these final results of review following the final judgement in the NAFTA panel appeals process.

**Cash Deposit Requirements**

The following deposit requirements will be effective upon the publication of this notice of final results of administrative review for all shipments of pure magnesium from Canada entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by 751(a)(1) of the Act: (1) For NHCI, which has a *de minimis* rate, no antidumping duty deposit will be required; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) the cash deposit rate for all other exporters will continue to be 21.00 percent, the "all others" rate made effective by the less-than-fair-value investigation.

These deposit instructions will remain in effect until publication of the final results of the next administrative review.

**Notification to Importers**

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to

liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

**Notification Regarding APOs**

This notice also serves as the only reminder to parties subject to the administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO material or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: July 30, 2003.

Joseph A. Spetrini,

Acting Assistant Secretary for Grant Aldonas,  
Under Secretary.

**Preliminary Results of Antidumping Duty Administrative Review: Stainless Steel Sheet and Strip in Coils From Italy**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of the preliminary results of the antidumping duty administrative review of stainless steel sheet and strip in coils from Italy.

**SUMMARY:** In response to a request from ThyssenKrupp Acciai Speciali Terni S.p.A. ("TKAST"), a producer and exporter of subject merchandise, and ThyssenKrupp AST USA, Inc. ("TKAST USA"), an importer of subject merchandise, the Department of Commerce ("the Department") is conducting an administrative review of the antidumping duty order on stainless steel sheet and strip in coils ("SSSS") from Italy. This review covers imports of subject merchandise from TKAST.

The Department preliminary determines that SSSS from Italy has been sold in the United States at less than normal value during the period of
