

(e) *How is my wife's or husband's or widow's or widower's benefit reduced when I am entitled to a reduced disability benefit in the same month?*

When a person is first entitled to a spouse or widow's or widower's benefit in or after the month of attainment of age 62 (or in the case of widow's or widower's benefits, age 50) that benefit is reduced if, in the first month of entitlement to that benefit, he or she is also entitled to a reduced disability benefit. Under these circumstances, the wife's or husband's or widow's or widower's benefit is reduced by the sum of:

(1) The amount (if any) by which the disability benefit is reduced under paragraph (b)(1) of this section, and

(2) The amount by which the wife's or husband's or widow's or widower's benefit would be reduced under § 404.410 if it were equal to the excess of such benefit (before any reduction for age but after reduction for the family maximum under § 404.403) over the disability benefit (before any reduction under paragraph (b) of this section).

23. Section 404.412 is revised to read as follows:

**§ 404.412 After my benefits are reduced for age when and how will adjustments to that reduction be made?**

(a) *When may adjustment be necessary?* The following months are not counted for purposes of reducing benefits in accordance with § 404.410;

(1) Months subject to deduction under § 404.415, § 404.417, or § 404.422;

(2) In the case of a wife's or husband's benefit, any month in which she or he had a child of the insured individual in her or his care and for which the child was entitled to child's benefits;

(3) In the case of a wife's or husband's benefit, any month for which entitlement to such benefits is precluded because the insured person's disability ceased (and, as a result, the insured individual's entitlement to disability benefits ended);

(4) In the case of a widow's or widower's benefit, any month in which she or he had in her or his care a child of the deceased insured individual and for which the child was entitled to child's benefits;

(5) In the case of a widow's or widower's benefit, any month before attainment of full retirement age for which she or he was not entitled to such benefits;

(6) In the case of an old-age benefit, any month for which the individual was entitled to disability benefits.

(b) *When is the adjustment made?* We make automatic adjustments in benefits to exclude the months of entitlement

described in paragraphs (a)(1) through (6) of this section from consideration when determining the amount by which such benefits are reduced. Each year we examine beneficiary records to identify when an individual has attained full retirement age and one or more months described in paragraphs (a)(1) through (6) of this section occurred prior to such age during the period of entitlement to benefits reduced for age. Increases in benefit amounts based upon this adjustment are effective with the month of attainment of full retirement age. In the case of widow's or widower's benefits, this adjustment is made in the month of attainment of age 62 as well as the month of attainment of full retirement age.

24. Section 404.413 is revised to read as follows:

**§ 404.413 After my benefits are reduced for age what happens if there is an increase in my primary insurance amount?**

(a) *What is the general rule on reduction of increases?* After an individual's benefits are reduced for age under §§ 404.410 through 404.411, the primary insurance amount on which such benefits are based may subsequently be increased because of a recomputation, a general benefit increase pursuant to an amendment of the Act, or increases based upon a rise in the cost-of-living under section 215(i) of the Social Security Act. When the primary insurance amount increases the monthly benefit amount also increases.

(b) *How are subsequent increases in the primary insurance amount reduced after 1977?* After 1977, when an individual's benefits have been reduced for age and the benefit is increased due to an increase in the primary insurance amount, the amount of the increase to which the individual is entitled is proportionately reduced as provided in paragraph (c) of this section. The method of reduction is determined by whether entitlement to reduced benefits began before 1978 or after 1977. When an individual is entitled to more than one benefit which is reduced for age, the rules for reducing the benefit increases apply to each reduced benefit.

(c) *How is the reduction computed for increases after 1977?*

(1) *Entitlement to reduced benefits after 1977.* If an individual becomes entitled after 1977 to a benefit reduced for age, and the primary insurance amount on which the reduced benefit is based is increased, the amount of the increase payable to the individual is reduced by the same percentage as we use to reduce the benefit in the month of initial entitlement. Where the reduced benefit of an individual has

been adjusted at full retirement age (age 62 and full retirement age for widows or widowers), any increase to which the individual becomes entitled thereafter is reduced by the adjusted percentage.

(2) *Entitlement to reduced benefits before 1978.* For an individual, who became entitled to a benefit reduced for age before 1978, whose benefit may be increased as a result of an increase in the primary insurance amount after 1977, we increase the amount of the benefit by the same percentage as the increase in the primary insurance amount.

(d) *How was the reduction computed for increases prior to 1978?* When the individual's primary insurance amount increased, the amount of the increase was reduced separately under §§ 404.410 and 404.411. The separate reduction was based on the number of months from the effective date of the increase through the month of attainment of age 65. This reduced increase amount was then added to the reduced benefit that was in effect in the month before the effective date of the increase. The result was the new monthly benefit amount.

25. Section 404.421 is revised to read as follows:

**§ 404.421 How are deductions made when a beneficiary fails to have a child in his or her care?**

Deductions for failure to have a child in care (as defined in subpart D of this part) are made as follows:

(a) *Wife's or husband's benefit.* A deduction is made from the wife's or husband's benefits to which he or she is entitled for any month if he or she is under full retirement age and does not have in his or her care a child of the insured entitled to child's benefits. However, a deduction is not made for any month in which he or she is age 62 or over, but under full retirement age, and there is in effect a certificate of election for him or her to receive actuarially reduced wife's or husband's benefits for such month (see subpart D of this part).

(b) *Mother's or father's benefits.—*(1) *Widow or widower.* A deduction is made from the mother's or father's benefits to which he or she is entitled as the widow or widower (see subpart D of this part) of the deceased individual upon whose earnings such benefit is based, for any month in which he or she does not have in his or her care a child who is entitled to child's benefits based on the earnings of the deceased insured individual.

(2) *Surviving divorced mother or father.* A deduction is made from the mother's or father's benefits to which he or she is entitled as the surviving
