

boundary for the trawl RCA and as a western boundary for the non-trawl RCA; the 100-fm (183-m) depth contour used between 34°27' N. lat. and the U.S. border with Mexico as an eastern boundary for the trawl RCA; the 150-fm (274-m) depth contour used between 40°10' N. lat. and the U.S. border with Mexico as a western boundary for the trawl RCA and used between 38° N. lat. and the U.S. border with Mexico as a western boundary for the non-trawl RCA; and the Winter Petrale Boundary (explained at 68 FR, 936, January 7, 2003) used north of 38° N. lat. as a western boundary for the trawl RCA and modified to allow fishing for petrale in winter months of January, February, November, and December.

The Yelloweye Rockfish Conservation Area (YRCA), an "L-shaped" area off Washington closed to recreational fishing for groundfish and halibut, is corrected to read an "L-shaped" rather than a "C-shaped" area. The YRCA is proposed to become a "C-shaped" area from March - December 2003 (68 FR 936, January 7, 2003). The YRCA coordinates are also corrected by rearranging them to read consecutively in the right order from top to bottom.

Technical Corrections

The emergency rule for January 1 through February 28, 2003 (68 FR 908, January 7, 2003), contained errors in references to regulatory section 50 CFR 660.304. The 2003 emergency rule specifications and management measures should refer to the Cowcod Conservation Areas (CCAs) in § 660.304(i) not in § 660.304(c).

This document corrects the errors and re-publishes the limited entry trawl trip limit tables (Table 3 (North) and Table 3 (South)).

Corrections

In the rule FR Doc. 02-32755, in the issue of Tuesday, January 7, 2003 (68 FR 908), under IV. NMFS Actions, make the following corrections:

Under A. General Definitions and Provisions:

1. On page 912, in columns 2 and 3, paragraphs (19)(a) and (b) are corrected to read as follows:

* * * * *

(19) * * *

(a) *Yelloweye Rockfish Conservation Area*. Recreational fishing for groundfish is prohibited within the YRCA. It is unlawful for recreational fishing vessels to take, retain, possess, or land groundfish inside the YRCA. The YRCA is an "L-shaped" area off the northern Washington coast that is

bound by straight lines connecting all of the following points in the order listed:

48°18' N. lat., 125°18' W. long.;
48°18' N. lat., 125°11' W. long.;
48°04' N. lat., 125°11' W. long.;
48°04' N. lat., 124°59' W. long.;
48°00' N. lat., 124°59' W. long.;
48°00' N. lat., 125°18' W. long.;
and connecting back to 48°18' N. lat., 125°18' W. long.

(b) *Cowcod Conservation Areas*. The coordinates of the Cowcod Conservation Areas (CCAs) are defined at § 660.304(i). Recreational and commercial fishing for groundfish is prohibited within the CCAs, except that recreational and commercial fishing for rockfish and lingcod is permitted in waters inside 20 fathoms (36.9 m). It is unlawful to take and retain, possess, or land groundfish inside the CCAs, except for rockfish and lingcod taken in waters inside the 20-fathom (36.9 m) depth contour, when those waters are open to fishing. Commercial fishing vessels may transit through the Western CCA with their gear stowed and groundfish on board only in a corridor through the Western CCA bounded on the north by the latitude line at 33°00'30" N. lat., and bounded on the south by the latitude line at 32°59'30" N. lat.

2. On page 914, in column 3, line 49, number (81) is corrected to read as follows:

"(81) 46°17.52' N. lat., 124°35.35' W. long.;"

3. On page 917, in column 3, paragraph (19)(e)(v) introductory text and on page 918, paragraphs (109) through (129) are corrected and paragraphs (130) through (150) are correctly added to read as follows:

* * * * *

(e) * * *

(v) The Winter Petrale Boundary used north of 38° N. lat. as a western boundary for the trawl RCA, modified to allow fishing for petrale in winter months of January, February, November, and December, is defined by straight lines connecting all of the following points in the order stated:

* * * * *
