Strengthen Tamil Nadu State AIDS Control Society Response to HIV/AIDS Chennai, India; Notice of Intent To Fund Single Eligibility Award**A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2003 funds for a cooperative agreement program for the Tamil Nadu State AIDS Control Society (TNSACS). The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to TNSACS. The State Government possesses the capability and institutional capacity to collaborate with the CDC Global AIDS Program (GAP), India in support of activities in the public sector in a way that no other agency or organization in the State of Tamil Nadu is qualified to do.

The State Government and the National AIDS Control Organization (NACO) are currently implementing their HIV/AIDS activities and programs

through the TNSACS, which is registered under the Government of India Societies Act. TNSACS is recognized at the national level as the policy and planning organization for all programs related to HIV throughout the state. TNSACS is charged with carrying out and implementing the National and State Government policies on HIV/AIDS.

TNSACS has the infrastructure, including systems to manage funds, as well as the human resources; the supervisory experience; and the expertise needed to track funds.

TNSACS, the State of Tamil Nadu, and CDC GAP have worked collaboratively in developing a plan to build infrastructure and provide training around information systems and a quality assured laboratory at the Chennai-based Government Hospital for Thoracic Medicine (GHTM) since the CDC GAP established activities in Tamil Nadu in 2001. The TNSACS is uniquely qualified to continue to support the GHTM activities initiated by CDC GAP. It is also the most appropriate organization to support the replication and expansion of CDC GAP activities into other areas of the state.

C. Funding

Approximately \$50,000 is available in FY 2003 to fund this award. It is expected that the award will begin on or before September 15, 2003, and will be made for a 12-month budget period within a project period of up to five years. Funding estimate may change.

D. Where To Obtain Additional Information

For general comments or questions about this announcement, contact: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone: 770-488-2700.

For technical questions about this program, contact: Nancy Hedemark Nay, MPH, Associate Director for Operations, Global AIDS Program, C/o U.S. Consulate, 220 Mount Road, Chennai, 600 006, India, Telephone: 91-44-2811-2000. e-mail address: nhn1@cdc.gov.

Dated: August 4, 2003.

Edward Schultz,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

[Program Announcement 03126]

Landmine Survivor Peer-Support Networks in Mine-Affected Countries; Notice of Intent To Fund Single Eligibility Award**A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2003 funds for a cooperative program to continue the development, implementation, and evaluation of landmine survivor peer-support networks in the landmine-affected countries of Bosnia, Jordan, El Salvador, Ethiopia, Mozambique and Viet Nam. The Catalog of Federal Domestic Assistance number for this program is 93.283.

B. Eligible Applicant

Assistance will be provided only to the Landmine Survivors Network (LSN), the recipient of funding under the original announcement. The CDC cooperative agreement with LSN was required by FY2000 congressional conference language. The sponsors of the language specifically directed CDC to directly support LSN's project. Staffers from the offices of several sponsors have, on a regular basis, followed up on the progress of the cooperative agreement.

In addition to this congressional intent, LSN is singularly qualified to conduct activities under this program, because it:

1. Designed, started and administers these networks.
2. Has existing staff, both domestically and internationally, trained in public health and social sciences related to landmine survivors.
3. Has a significant global presence, allowing it to coordinate with local governments and international organizations in the implementation of projects related to landmine survivors.
4. Is the primary non-governmental organization (NGO) working with landmine survivor issues.
5. Has an existing field presence including the only peer-support networks in each of the countries identified in this announcement.

It would be financially, logistically, and programmatically difficult for an organization other than LSN to continue this program.
