An electronic copy of this document may be downloaded through the Internet at <http://dms.dot.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at <http://www.faa.gov> or the Superintendent of Document's web page at <http://www.access.gpo.gov/nara>.

Additionally, any person may obtain a copy of this notice by submitting a request to the Federal Aviation Administration, Office of Air Traffic Airspace Management, ATA-400, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267-8783. Communications must identify both docket numbers for this notice. Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing to amend Title 14 Code of Federal Regulations (CFR) part 71 (part 71) by establishing two colored Federal airways, A-5 and B-1, in Alaska. Presently there are several uncharted nonregulatory routes that use the same routing as the proposed colored Federal airways. These uncharted nonregulatory routes are used daily by commercial and general aviation aircraft. However, the air traffic control (ATC) management of aircraft operations is limited on these routes. The FAA is proposing to convert these uncharted nonregulatory routes to colored Federal airways. This action would add to the IFR airway and route structure in Alaska. The routes conversion would provide an airway structure to support existing commercial services in Alaska.

Additionally, adoption of these Federal airways would: (1) Provide pilots with minimum en route altitudes and minimum obstruction clearance altitudes information; (2) establish controlled airspace thus eliminating

some of the commercial IFR operations in uncontrolled airspace; and (3) improve the management of air traffic operations and thereby enhance safety.

Colored Federal airways are published in paragraph 6009 of FAA Order 7400.9K dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR Section 71.1. The colored Federal airways listed in this document would be published subsequently in the order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
