

regulations will be enforced by tribal fish and game officers.

On reservation, the Tribal Community proposes a hunting season for the above-mentioned species beginning on the earliest possible opening date and closing March 9, 2004. The Swinomish manage harvest by a report card permit system, and we anticipate harvest will be similar to that expected off reservation.

We believe the estimated harvest by the Swinomish will be minimal and will not adversely affect migratory bird populations. We propose to approve the Tribe's requested 2003–04 special migratory bird hunting regulations.

*(w) The Tulalip Tribes of Washington, Tulalip Indian Reservation, Marysville, Washington (Tribal Members and Nontribal Hunters)*

The Tulalip Tribes are the successors in interest to the Tribes and bands signatory to the Treaty of Point Elliott of January 22, 1855. The Tulalip Tribes' government is located on the Tulalip Indian Reservation just north of the City of Everett in Snohomish County, Washington. The Tribes or individual tribal members own all of the land on the reservation, and they have full wildlife management authority. All lands within the boundaries of the Tulalip Tribes Reservation are closed to nonmember hunting unless opened by Tulalip Tribal regulations.

The Tulalip Tribes proposed tribal and nontribal hunting regulations for the 2003–04 season. Migratory waterfowl hunting by Tulalip Tribal members is authorized by Tulalip Tribal Ordinance No. 67. For ducks, mergansers, coot, and snipe, the proposed season for tribal members would be from September 15, 2003, through February 29, 2004. In the case of nontribal hunters hunting on the reservation, the season would be the latest closing date and the longest period of time allowed under final Pacific Flyway Federal frameworks. Daily bag and possession limits for Tulalip Tribal members would be 7 and 14 ducks, respectively, except that for blue-winged teal, canvasback, harlequin, pintail, and wood duck, the bag and possession limits would be the same as those established in accordance with final Federal frameworks. For nontribal hunters, bag and possession limits would be the same as those permitted under final Federal frameworks. Nontribal members should check with the Tulalip tribal authorities regarding additional conservation measures which may apply to specific species managed within the region. Ceremonial hunting may be authorized

by the Department of Natural Resources at any time upon application of a qualified tribal member. Such a hunt must have a bag limit designed to limit harvest only to those birds necessary to provide for the ceremony.

For geese, tribal members are proposed to be allowed to hunt from September 15, 2003, through February 29, 2004. Non-tribal hunters would be allowed the longest season and the latest closing date permitted for Pacific Flyway Federal frameworks. For tribal hunters, the goose daily bag and possession limits would be 7 and 14, respectively, except that the bag limits for brant, cackling Canada geese, and dusky Canada geese would be those established in accordance with final Federal frameworks. For nontribal hunters hunting on reservation lands, the daily bag and possession limits would be those established in accordance with final Federal frameworks for the Pacific Flyway. The Tulalip Tribes also set a maximum annual bag limit for those tribal members who engage in subsistence hunting of 365 ducks and 365 geese.

All hunters on Tulalip Tribal lands are required to adhere to shooting hour regulations set at one-half hour before sunrise to sunset, special tribal permit requirements, and a number of other tribal regulations enforced by the Tribe. Nontribal hunters 16 years of age and older, hunting pursuant to Tulalip Tribes' Ordinance No. 67, must possess a valid Federal Migratory Bird Hunting and Conservation Stamp and a valid State of Washington Migratory Waterfowl Stamp. Both stamps must be validated by signing across the face of the stamp.

Although the season length requested by the Tulalip Tribes appears to be quite liberal, harvest information indicates a total take by tribal and nontribal hunters under 1,000 ducks and 500 geese, annually.

We propose approval of the Tulalip Tribe's request for the above seasons. We request that harvest be monitored closely and regulations be reevaluated for future years if harvest becomes too great in relation to population numbers.

*(x) Upper Skagit Indian Tribe, Sedro Woolley, Washington (Tribal Members Only)*

The Upper Skagit Indian Tribe and the Service have cooperated to establish special regulations for migratory game birds since 2001. The Tribe has jurisdiction over lands within Skagit, Island, and Whatcom Counties, Washington. Tribal hunters are issued a harvest report card that will be shared with the State of Washington.

For the 2003–04 duck season, the Tribe requests a season of November 1, 2003, and ending February 8, 2004. The Tribe proposes a daily bag limit of 15 with a possession limit of 20. The coot daily bag limit is 20 with a possession limit of 30.

The Tribe proposes a goose season from November 1, 2003, to February 8, 2004, with a daily bag limit of seven geese and five brant. The possession limit for geese and brant are seven and five, respectively.

The Tribe proposes a mourning dove season between September 1 to December 31, 2003, with a daily bag limit of 12 and possession limit of 20.

The anticipated migratory bird harvest under this proposal would be 100 ducks, 5 geese, 2 brant, and 10 coots. Tribal members must have the tribal identification and harvest report card on their person to hunt. Tribal members hunting on the Reservation will observe all basic Federal migratory bird hunting regulations found in 50 CFR, except shooting hours would be one-half hour before official sunrise to one-half hour after official sunset.

The Service proposes to approve the request for special migratory bird hunting regulations for the Upper Skagit Indian Tribe. We request that the Tribe closely monitor harvest of this special migratory bird hunting season.

*(y) Wampanoag Tribe of Gay Head, Aquinnah, Massachusetts (Tribal Members Only)*

The Wampanoag Tribe of Gay Head is a federally-recognized Tribe located on the island of Martha's Vineyard in Massachusetts. The Tribe has approximately 560 acres of land, which it manages for wildlife through its natural resources department. The Tribe also enforces its own wildlife laws and regulations through the natural resources department.

For the 2003–04 season, the Tribe proposes a duck season of November 1, 2003, to February 28, 2004. The Tribe proposes a daily bag limit of six birds, which could include no more than two hen mallards, two black ducks, two mottled ducks, one fulvous whistling duck, four mergansers, three scaup, one hooded merganser, two wood ducks, one canvasback, two redheads, and one pintail. The season for harlequins would be closed. The Tribe proposes a teal (green-winged and blue) season of October 18, 2003, to January 31, 2004. A daily bag limit of six teal would be in addition to the daily bag limit for ducks.

For sea ducks, the Tribe proposes a season between October 18, 2003, and February 28, 2004, with a daily bag limit
