

- We corrected a ministerial error in the calculation of the surrogate overhead and SG&A ratios.
- We revised the surrogate value for inland truck transportation using the updated data available.
- We valued sulfuric acid using a surrogate value for sulfuric acid rather than a constructed value.

For a complete discussion of these changes see the August 7, 2003, "Issues and Decision Memorandum for the Final Results of the Antidumping Duty Administrative Review of Bulk Aspirin from the People's Republic of China" ("Decision Memorandum"), the August

7, 2003, company-specific calculation memorandum, and the August 7, 2003, Factors of Production Memorandum.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs are addressed in the *Decision Memorandum* which is hereby adopted by this notice. Attached to this notice as an appendix is a list of the issues which the parties have raised and to which we have responded in the *Decision Memorandum*. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this

public memorandum which is on file in the Central Records Unit, Room B-099 of the Department. In addition, a complete version of the *Decision Memorandum* can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/summary/list.htm>. The paper copy and electronic version of the *Decision Memorandum* are identical in content.

Final Results of Review

We determine that the following dumping margins exist for the period July 1, 2001, through June 30, 2002:

Exporter/manufacture	Weighted-average margin percentage
Shandong Xinhua Pharmaceutical Co., Ltd.	0.00
Jilin Henghe Pharmaceutical Company Ltd.	0.00

Assessment Rates

In accordance with 19 CFR 351.212(b)(1), we have calculated importer (or customer)-specific assessment rates for the merchandise subject to this review. To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer (or customer)-specific *ad valorem* rates by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total value of the sales to that importer (or customer). Where an importer (or customer)-specific *ad valorem* rate was greater than *de minimis*, we calculated a per unit assessment rate by aggregating the dumping margins calculated for all U.S. sales to that importer (or customer) and dividing this amount by the total quantity sold to that importer (or customer). Where an importer (or customer)-specific *ad valorem* rate was *de minimis*, we will order the Customs Service to liquidate without regard to antidumping duties.

All other entries of the subject merchandise during the POR will be liquidated at the antidumping duty rate in place at the time of entry.

The Department will issue appropriate assessment instructions directly to the U.S. Bureau of Customs and Border Protection (CBBP) Service within 15 days of publication of these final results of review.

Cash Deposit Requirements

The following deposit rates will be effective upon publication of these final results for all shipments of bulk aspirin from the PRC entered, or withdrawn from warehouse, for consumption on or

after the publication date of this notice, as provided for by section 751(a)(1) of the Act: (1) for Shandong and Jilin, which have separate rates, no antidumping duty deposit will be required; (2) for a company previously found to be entitled to a separate rate and for which no review was requested, the cash deposit rate will be the rate established in the most recent review of that company; (3) for all other PRC exporters the cash deposit rate will be 144.02 percent, the PRC-wide rate established in the less than fair value investigation; and (4) for non-PRC exporters of subject merchandise from the PRC, the cash deposit rate will be the rate applicable to the PRC supplier of that exporter. These deposit rates shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues

to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: August 7, 2003.

James J. Jochum,

Assistant Secretary for Import Administration.

APPENDIX

List of Comments in the Issues and Decision Memorandum

Comment 1: Use of Import Prices v. Domestic Prices in India to Value Phenol

Comment 2: Adjustment of Overhead and SG&A Ratios to Account for Different Levels of Integration

Comment 3: Removal of Excise Tax from Alta's Reported Material Costs for the Calculation of Overhead and SG&A Ratios

Comment 4: Other Adjustment to the Overhead and SG&A Ratios
